Project Summary:

Project: Updation of State Farm Insurance.

Technologies: Python, Django, JSON, HTML, CSS, MySQL, Git, Sublime Text, Atom, Jira.

Duration: From Aug-2018 to till now.

Role: Associate Software Developer

Description:

It is an American based Auto insurance provider which provides a fully integrated insurance to vehicles.

Responsibilities:

- As a full -stack python developer, my responsibility is to make website ready for the existing customers who are willing to upgrade to the latest version. Each customer have different requirements.
- So, I have to implement and add all the additional requirements or features to the base template, test it thoroughly and hand it over to the client.
- I have gained knowledge of the insurance policies. Worked on a challenging environment where deadlines are short, need to work on any kind of issues (Bug fixing, Development). Shifting focus on urgent issues, providing solution designs for further development work parallely.
- For every development work. Our code has to go through a reviewing system by senior dev and needs to be approved before it gets merged.
- Always focused on deadlines and never gone beyond the target dates.
- Worked on tasks to improve website response time by optimizing the code. Expertise in both client's business and current developing features.
- Worked on building API's to expose our insurance components data to third party users.
- Have experience with automobile companies for knowing the various variants of automobile integrations. Involvement in cloud services like AWS.
- Conducted KT sessions for freshers on the project and helped them in fixing their errors, suggesting the methodologies and standards we follow in our project and having high-level code reviews.

- Effectively understood and able to explain the things and communicated day to day developments and critical issues with the team.
- As a part of self-training, giving sessions on Django to the team and learnt Flask.

Declaration:

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
