_____

PROFESSIONAL SUMMARY:

Experienced software developer with a proven track record of contributing to organizational growth and fostering skill development within teams. With 6.3 years of professional experience, my expertise lies in MuleSoft Anypoint Platform & Anypoint Studio (Mule ESB, RAML 1.0), encompassing 3.4 years of specialized experience in this domain. Additionally, I bring 2.7 years of hands-on proficiency in Native iOS Application Development.

- Proficient in Web Services (REST) and adept in Mule application testing using Postman.
- Skilled in Restful API Design & Development using RAML and using MuleSoft Anypoint Studio to create various integration flows for applications, web services, APIs, and databases.
- Experienced in utilizing connectors such as HTTP, FILE, DATABASE, AWS, and SALES FORCE.
- Familiarity with Agile methodology and its application in project development.
- Well-versed in both Anypoint Studio and Cloud Hub operations.
- Expertise in data transformation using Data Weave Language (DWL) and comprehensive error handling techniques, including On Error Propagate and On Error Continue in flows.
- Proficient in applying security policies for developed APIs.

SKILLS:

- Platforms: MuleSoft Any point Integration Platform, iOS (Mobile Platform).
- Programming: Data Weave Language, C, Objective C, Swift 4.
- ESB Technologies: Mule ESB (4.x), Any Point Studio, Any Point Platform, RAML, DWL
