PROFESSIONAL EXPERIENCE

Total 4 Years of experience in Oracle APEX, SQL, PL/SQL Technologies.

PROFILE SUMMARY

- Over 4 years of programming experience as an **Oracle PL/SQL Developer** and **Oracle APEX Developer.**
- Leading the design, debugging, coding and maintenance of applications built on **Oracle APEX**.
- Build and support internal solutions while conducting systems analysis, design, coding, testing and troubleshooting of new and existing applications with timely delivery against aggressive deadlines.
- Developed Complex database objects like Stored Procedures, Functions, Packages and Triggers using SQL and PL/SQL.
- Handled errors using Exception Handling extensively for the ease of debugging and displaying the error messages in the application.
- Front-End programming using JavaScript, CSS and HTML

CURRENT COMPANY	
Company:	Clover InfoTech PVT. LTD., Mumbai
Experience:	From August 2019 - till date
Profile:	Software Engineer

PROJECT DETAILS

Project 1	CART GAP FILE AUTOMATION
Client	ICICI BANK
Role	Backend & Frontend Developer
Responsibility	• File uploading/downloading using PLSQL in Apex. • Develop pages using Apex tool. • Audit calculations present in the file.
Technology	SQL, PL SQL, Oracle Apex, Web logic server, JavaScript
Description	A new web application is designed for ICICI Bank and its users for automation of RBI Returns of multiple business teams for multiple GAP (Generation Analysis And Planning) files. This automation is supposed to avoid manual working of collating the data from various teams and pasting the same in working file. Also will help to avoid probable errors through system based validations and to build accountability and controls on the input providers specifically to save man hours.

Project 2	FEEDBACK
Client	ICICI BANK
Role	Backend & Frontend Developer
Responsibility	• Develop survey pages using PLSQL through Apex. • Response Analysis using charts. • Develop multiple forms in PLSQL as per business requirement.
Technology	SQL, PL SQL, Oracle Apex, Rest API, Web logic server, JavaScript
Description	Feedback application is developed for ICICI Bank and is used by bank employees to give feedbacks and send response to their managers. Accordingly manager can review their responses and assign activity to the employee. Charts are provided for better review purposes. File upload is developed. Multiple forms are prepared using PLSQL in APEX.

Project 3	EQUITAS VENDOR MAKER CHECKER APPLICATION
Client	Equitas Small Finance Bank
Role	Backend & Frontend Developer
Responsibility	• Develop various EBS Modules like Supplier, Customer, GL Master, Tax Configuration, HSN Reporting, Bank Master, AR/AP Period, Threshold Master Modules using Oracle APEX
Technology	SQL, PL SQL, Oracle Apex, JavaScript
Description	Client required authorization functionality in their EBS application. So we developed maker checker concept in Oracle APEX for various EBS modules. In which for each transaction, one individual may create a transaction, the other individual should be involved in confirmation/authorization of the same.

EDUCATIONAL QUALIFICATION

2016-2019	**University of Mumbai** Bachelor of Engineering (Computer Engineering)	58%
2013-2016	**MSBTE** Diploma in Computer Engineering	73%
2013	**Maharashtra Board** S.S.C.	66%

CERTIFICATIONS

1Z0-770: Oracle APEX Cloud Developer Professional Certification
