### PROFESSIONAL SUMMARY

Highly experienced iOS developer with a proven track record of designing, developing, and delivering exceptional mobile applications for the iOS platform. With 9 years of hands-on experience, I possess a deep understanding of iOS architecture, frameworks, and best practices. My expertise encompasses Swift and Objective-C, and I am well-versed in the entire app development lifecycle, from concept to deployment and maintenance.

- Expertise in iOS Development:** Proficient in Swift and Objective-C, with a deep understanding of iOS frameworks including UIKit, Core Data, Core Animation, Core Location, and MapKit.
- UI/UX Excellence:** Adept at designing visually appealing and intuitive user interfaces that adhere to Apple's Human Interface Guidelines (HIG) for optimal user experiences.
- Architectural Mastery:** Skilled in crafting scalable and maintainable app architectures using MVVM, MVC, or VIPER, ensuring code quality and extensibility.
- Performance Optimization:** Experienced in enhancing app performance through efficient coding practices, reducing load times, and minimizing resource usage.
- API Integration:** Proficient in integrating RESTful APIs, third-party libraries, and SDKs to expand app capabilities and access external data sources.
- Version Control:** Well-versed in Git and GitHub, ensuring efficient code management and seamless collaboration with development teams.
- Testing and Debugging:** Expert in unit testing, UI testing, and debugging techniques to identify and resolve issues promptly.
- Cross-functional Collaboration:** Proven ability to collaborate effectively with cross-functional teams, including designers, product managers, and backend developers, to drive project success.
- Leadership and Mentorship:** Skilled in leading development teams, providing technical guidance, conducting code reviews, and mentoring junior developers to foster growth.
- Agile Methodologies:** Proficient in Agile methodologies, particularly Scrum and Kanban, for streamlined project management and on-time delivery.

### EXPERIENCE

April 2022 - Now

#### Senior ios developer

Quest Retail Pvt. Ltd. / Gurugram, India

As a Senior iOS Developer at Quest Retail Pvt. Ltd. in Gurugram, I was responsible for developing and maintaining high-quality iOS applications for the company's retail business. I worked closely with the product team to understand user requirements and translate them into efficient and user-friendly app features. Additionally, I collaborated with designers and other developers to ensure a seamless and visually appealing user experience.

- Designed and implemented new features for iOS apps
- Conducted code reviews and provided feedback for junior developers
- Optimized app performance and ensured compatibility with various devices
- Developed and maintained clean and organized codebase
