WORK EXPERIENCE

Software Developer

CatalystOne Info Solutions Pvt Ltd

01/2020 - Present

Mohali

Achievements/Tasks

- Worked on Candidate API where I used multiple patterns to follow.
- Factory Pattern : For Creating objects for Candidate API.
- Singleton Pattern: Used over factories so As to allow only one shared instance of the factory.
- DAO Pattern: Used by factories to retrieve and manipulate data in the database.
- MVC: To move Interaction At Client-side request with server-side to generate a response
- Make Candidate UI using Bootstrap. • Put Validation on Candidate using Javascript.
- Use HTTP methods for RESTful Services.
- Use Jackson API for parse JSON data.
- Use Swagger API to design, build, document, and use RESTful web services.
- Design UI for candidate API and handle Backend.
