## SUMMARY

- Over 5.4 years of experience in software development using Java/J2EE, Spring Boot, Restful Web services and Oracle in design and development projects.
- In-depth knowledge on Software Development Life Cycle (SDLC) concepts - requirement specifications, system analysis, development, testing, implementation, debugging and maintenance.
- Ability to work independently as well as in group with minimal supervision.
- Excellent skills in understanding business needs and converting them into technical solutions.

## TECHNICAL SKILLS

<b>Programming Languages</b>	Java, Python, SQL
<b>Framework</b>	Spring Boot, Microservices
<b>Database</b>	Oracle 11g, PostgreSQL
<b>ORM</b>	JPA with hibernate,
<b>Tools</b>	ServiceNow, Jenkins, Win SCP, Maven, Tortoise, Putty, Bitbucket
<b>IDE</b>	Eclipse, IntelliJ, Spring Tool Suite
<b>RDBMS</b>	Oracle SQL, MySQL

## EMPLOYMENT HISTORY

<b>Name of the Company</b>	<b>Designation</b>	<b>From</b>	<b>To</b>
Thomson Reuters	Associate	Feb 2016	Dec 2018
HCL Technologies Limited	Lead Engineer	Jan 2019	Till Date

## EDUCATION

<b>Degree</b>	<b>College/University</b>	<b>Percentage/CGPA</b>
M.Tech (Computer Science)	N.M.A.M institute of Technology, Nitte /VTU Belgaum	75.5

## PROJECT PROFILE

Project Title	CISCO- Collab Assessments and Audits
Client	Cisco Systems.
Duration	Jan 2019 – To Present
Technologies	Spring Boot, Microservices, Hibernate, PostgreSQL, Python

## PROJECT DESCRIPTION

Cisco develops, manufactures, and sells networking hardware. Cisco offers audits for the hardware's. They have legacy tools like BV to audit their audio and Video conference devices. Collab Audits and Assessments is a re-architecture implementation that will replace legacy tools. This is an on-prime application allows the users to generate reports. The functionality of Collab A&A is to collect data from customer network devices and servers and applies best practice rules to the collected data and allows the customer to download their best practice and violations report for their devices.

## ROLES AND RESPONSIBILITIES IN THE PROJECT

- Developed parsing rules using python
- Modified existing micro services according to acceptance criteria
- Developed different types of charts in word document for the report.
- Build, Deployed, and tested the modified micro service in different environments.
- Changed the PostgreSQL queries as per requirement.
- Finding RCA for the complex defects.

## PROJECT PROFILE

Project	Judicial Repositories (Trdocs)
Duration	Jan'17 – Dec'18
Role/Position	Developer
Team Size	6
Project Desc.	The Trial Document application manages the loading of documents into Oracle database, which comes from the different court websites and take care of metadata regarding the documents. In addition, these documents are helpful in linking the court related documents through Docket numbers.
Tech. Env.	Java, Spring, Hibernate, Eclipse, Junit, Tomcat, Oracle, REST
Responsibilities	<ul style="list-style-type: none"><li>• Involved in Requirement gathering, analysis and code development.</li><li>• Developed a new workflow for certain supreme courts as well as trials courts.</li><li>• Implemented Custom Validations as per the Requirement.</li><li>• Done enhancements for removal process of sealed as well as privacy documents.</li><li>• Developed DAO Impl classes using Hibernate Template from SPRING with HIBERNATE API.</li><li>• Developed business components and configured as beans using Spring DI.</li><li>• Responsible for writing J-Unit test cases.</li></ul>

## PROJECT PROFILE

Project	Trcases (MyBriefs)
Duration	Feb'16 – Dec'16
Role/Position	Developer
Team Size	6
Project Desc.	MyBriefs application loads the all the Appellate or Supreme Court related documents coming through Data Capture systems to Oracle database. It also allows the Expert Classifiers to update the case information, which includes fields like Docket Number, Case filed date, Court name, Brief no etc. It also gives Novus promotion details for Docket's for the input case.
Tech. Env.	Core java, J2EE, Oracle 10g, Servlets, JDBC, JSP, Junit, Tomcat.
Responsibilities	Involved in Requirement gathering, analysis and code development. Developed a new workflow for certain supreme courts as well as trials courts. Done enhancements for removal process of sealed as well as privacy documents. Involved in database migration process from old server to new server. Developed DAO Impl classes using Hibernate Template from SPRING with HIBERNATE API. Developed business components and configured as beans using Spring DI.

## Personal Information

<b>Date of birth</b>	June 01,1990
<b>Sex</b>	Male
<b>Nationality</b>	Indian
<b>Marital status</b>	Single
<b>Date of Joining</b>	Jan 22 <sup>nd</sup> 2019
<b>Designation</b>	Lead Engineer
<b>Employment Type</b>	Permanent
<b>Present Address</b>	House, number 770, 2nd main c block AECS layout Kundanalli. Bangalore – 560037
<b>Contact Number</b>	+91-7676213913/8971312703

## Declaration:

I do hereby declare that all information furnished above statements is true, correct to the best of my knowledge and belief, thank you for your time and consideration in this matter.
