                                                                           Bangalore-560004
                                                                           India.

CAREER OBJECTIVE

A highly organized and hard-working individual looking to secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the company.

WORK EXPERIENCE

ICAP Financial Services
Role - Management trainee: Financial advisor at trading desk
During my 6-month internship, I worked with the trading team where I was responsible for making trades on behalf of the clients in cash, currency, and derivative markets. The following points indicate my day-to-day roles and responsibilities.

❖ Analyze the financial performance of companies through analysis of financial results, forecasts, variances, and trends.
❖ Develop financial models to support valuation, planning, and forecasting.
❖ Conduct comparable analysis and market research to support internal financial analysis.
❖ Maintain up-to-date technical knowledge of financial instruments, market conditions, and trends.
