Mobile No.- 9999636734

Professional Summary:

- Around **8 years** of hands-on experience in Solutions and implementation consulting across multiple industries with **webMethods product**
- Expertise in Implementation and support of Enterprise Application Integration(**A2A**) and Business to Business(**B2B**) **Integration** using **webMethods platform**
- Having **Software AG Certified webMethods and webMethods.io Associate badge**
- Experience in **Full Life Cycle Implementations** i.e., requirements gathering, analysis, design, documentation, development, implementation, testing, deploying, and supporting solutions
- Experience in different **webMethods components** like **Integration Server, MWS, webMethods Developer/Designer, API Management, Broker, Universal Messaging, webMethods Developer, web Services (REST and SOAP)**
- Expertise in manage problem identification and provide solutions to stakeholders
- Good knowledge of configuring and monitoring webMethods components, Maintenance of Code and Administrative tasks
- **Certified webMethods.io Integration, B2B and API management Associate badge**
- **Certified workato Automation Pro I and Automation Pro II**
- **Certified Dell Boomi EDI X12, Administrator and Professional Developer**
- Experienced in API (**Rest and SOAP**) based Solutions
- Involved in webMethods upgrade testing with Business Application Owners
- Expertise in developing Integration processes as per requirement
- **Experience in webMethods different versions 7.1,8.2,9.5,9.7,10.1,10.5**
- Experience in working with various data formats like **EDI, XML, Flat Files, JSON and IDOCs**
- Working knowledge in webMethods adapters like **JDBC Adapters, MQ Adapter, SAP Adapters**
- Hands on experience on **SFTP, FTP, AS2** and webMethods File Pooling, and Flat Files.
- Experience in basic database (**ORACLE and SQL**) queries
- Unit testing, System Integration Testing and User Acceptance Testing
- Knowledge in **Java, BPM and CAF**
- Requirements Analysis and preparing required documents for deliverables
- Very good analytical and programming skills

- Conversant with project methodologies and processes
- Have a good understanding of the **onsite/offshore model**, working processes and time zone differences
- Involved in provide the training to business users to monitor the transactions

Certifications:

webMethods(iPaaS) Certifications:

- **Software AG Certified webMethods Integration Associate badge**
- **Software AG Certified webMethods.io Integration Associate badge**
- **Software AG Certified webMethods.io B2B Associate badge**
- **Software AG certified webMethods.io API Management Associate badge**

Workato(iPaaS)Certifications:

- **workato Automation Pro 1**
- **workato Automation Pro 2**

Dell Boomi(iPaaS) Certifications:

- **Professional Developer**
- **Production Administrator**
- **EDIX12 B2B Management**

Work Experience:

- Working as a Lead Assistant Manager- IT EDI Developer in Valvoline Lubricants and Solutions India Pvt Ltd. from Nov 2021 to till date
- Working as an Assistant Manager- IT EDI Developer in Valvoline Lubricants and Solutions India Pvt Ltd. from Jan 2020 to July 2021
- Worked as an Application Developer in Fujitsu Consulting India since March 2018 to Jan 2020
- Worked as a Software Engineer in Kavniya Technology Solutions Pvt. Ltd. From Jan 2017 to Jan 2018
- Worked as webMethods Developer in Newzel Technologies Pvt. Ltd. from November 2014 to January 2017

Projects Summary:

Project/Client Name: Valvoline
Role: Lead Assistant Manager- IT EDI Developer

(Jan 20 - till date)

- Involved in requirement gathering from stakeholders
- Involved in EDI migration from WDI (WebSphere Data Interchange) to webMethods
- Involved in creating the business documents and create the technical documents
- Worked extensively with multiple interfaces implementation in webMethods
- Monitor the B2B transactions by using MWS
- Involved Partner Onboarding, SFTP User creation
- Support the business process outside business hours
- Involved in webMethods version upgrade testing with business owner.
- Executed the test cases as per schedule, reported bugs updating the status
- End to End Process Testing
- Communicate with stake holder for continue business process
- Involved in Unit testing of the developed code. Creating Unit test case documents and Interface (Low Level) design documents for the data flows
- Have experience in daily production support issues and Maintenance activity on rotation basis

Environment: webMethods 9.7/10.5 IS, JDBC, MQ, SAP Adapter, webMethods Designer, MWS, webMethods Broker, webMethodsDeployer, web services, Mail, SFTP, FTP, Workato Soap/Rest API, JSON, XML, Ipaas, MS Management Studio DB, windows, Linux, SOAP UI, WinSCP, SAP ECC, WDI (WebSphere Data Interchange)

Project/Client Name: Fujitsu North America Migration
Role: Application Developer

(Mar 18 - Jan 20)

Responsibilities:

- Involved in gathering the business requirements and preparing mapping specification
- Developed many Interfaces based on requirements
- Configured adapter connections to the database from webMethods
- Configured schedulers to retrieve data from source system
- Involved in Unit testing of the developed code. Creating Unit test case documents and Interface (Low Level) design documents for the developed code
- Closely worked with client for SIT and UAT testing Issues
- Owned the daily activity of taking backups of all packages
- Provide on-call and after working hours support for production environments on a rotation basis
- Installation and update the partner certificates
- Have experience in Release management and Production support and Maintenance activity of applications and sever
- Have experience in Supporting, Development, troubleshooting and problem fixing and resolution implementing in webMethods

Environment: Dell Boomi, Atmosphere, Atoms, web service, Mail, SFTP, webMethods 10.1 IS, JDBC Adapter, webMethods Designer 10.1, MWS, webMethods Universal Messaging, webMethods Deployer, MS Management Studio DB, windows, Linux, SOAPUI, WinSCP, Service Now, Manage Now

Project/Client Name: Panasonic Industrial Device Sales
Role: Software Engineer

(Jan 17 - Jan 18)

Responsibilities:

- Involving in business meetings and getting the requirements in preparing document specifications and mapping specifications
- Worked with EDIFACT and EDI(ANSI) X12 transaction sets like 810, 850, 860, 997
- Defining Dictionaries and Schemas for the flat file documents sent by third party customers
- Developed interfaces which flows the data from external customers to SAP and vice versa for both A2A & B2B applications
- Developed interfaces to translate the data from EDI to Idocs and Idocs to EDI, Flat files to Idocs and Idocs to Flat files and send them to target applications
- Worked on flat files, EDI and IDOC doc types
- Performed Unit testing, created Test plan document and resolved development related issues of SIT
- Sending daily report with activities and do weekly status meeting with on-site team
- Involved in providing the L2 application support
- Modify the logic, mapping & some additional enhancement when required by the customers
- Monitoring error messages that are triggered by integration interfaces as

Environment: webMethods 9.5, JDBC Adapter, SAP Adapter, MQ Adapter, Toad, Oracle 11g, Linux, windows, MWS, SAP ECC

Project/Client Name: CRH Brazil
Role: webMethods Developer

(Jun 15 - Jan 17)

Responsibilities:

- Involved in resolving production issues
- Involved in development of flow services as per client requirements
- Configure JDBC adapter connections and adapter services.
- Involved in replicating production system and its configuration on to another host.
- Extensively worked in debugging of flow services.
- Using third party tool like SQL to interact with database.
- Resubmitting failed documents in MWS.
- As a production support team member, actively participated in code deployments to next level environments

Environment: webMethods Integration Server 4.6/8.2, webMethods Designer, MWS, webMethods Deployer, webMethods JDBC Adapter, Oracle10g, Linux, SQL Developer, windows, Linux

Project/Cient Name: Bid2Win Upgrade
Role: webMethods Developer

(Nov 14 - Jun 15)

Responsibilities:

- Involved in creating flow services based on requirement
- Adding new fields in documents and mapping between fields
- Created subscriber web services by using WSDL in webMethods
- Interacting with Database with the help of JDBC Adapter
- Responsible for creating the Partner Profiles, Document Types and Processing rules
- Resubmit failed documents using trading networks

Environment: webMethods Integration Server 7.1, Trading Network 6.1, webMethods Developer 7.1, webMethods JDBC Adapter, web services, windows, Linux

Academic Qualification:

- **Master of Computer Application** from M.T University Noida in the year 2010 – 2013
- **Bachelor of Science** (Math, Physics and Statistics) from C.C.S University Noida in the year 2007 – 2010

Location: Gurugram
