Contact No : +91 8885891568
Address : 10-4-79,
Srinivasa Nilayam, Fathenagar,
Balanagar,
Hyderabad-18.

Work Experience: -

- Working as a Jr.Software Developer at **Mantra Technologies** from 1st Nov 2018 to till date.

Project #1: Appup: -

Appup is a framework build with a concept of “**No-Code Low-Code**” where a developer can build back-end & front-end without writing the code using drag & drop feature along with automated deploy in cloud service like AWS, GCP as a docker image.

Project #2: V2: -

It is an API for building server-less applications, provides API for CRUD operations, storage, sending email bulk & CRON jobs.

Project #4: PBX Plus: -

Private Branch Extension is a single platform integration tool for API's like Twilio, Plivo for handling inbound call-routing mechanism with a simple drag & drop feature to scale customer communication.

Project #4: Botup: -

Botup provides a self-serve platform for building chatbots for Facebook, WhatsApp, SMS, Slack & Websites. Botup has an intuited visual interface that enables non-technical & business users design and build chatbot flows and establish conversational rules.

Project #5: Mailsend: -

Creating & sending state of the art newsletters, and managing drip campaigns from one central location.

Project #6: BPM: -

Business Process Management is to create a continuously improving ecosystem in small organization & helps organizations to process things fast.
