Projects

NOV 2018 – PRESENT

IDFC First – INDIA / Team size: 400+

Website: <https://www.idfcfirstbank.com/>

Cloud: Sales, Service, Community

IDFC First Limited is a NBFC with multiple lines of business (LOB) for financial lending solutions. Each LOB uses different IT systems and business processes to run the overall business. Customer information is lying in different silos. The objective for introducing CRM is to provide a “single view” of the customer across the organization to all the stakeholders right from the first customer data entry into the system, movement of the customers case through various validation processes, to the loan disbursal and ensuing customer lifecycle, thus, giving a “cradle to grave” information view of the customers association with IDFC First.

There are 14+ businesses under this project. With all these major products being migrated into SFDC from traditional system IDFC First enjoys a great benefit of Cloud Architecture and On the Go feature. IDFC First being into Financial domain needs various external webservices for the external data required for the data processing. It has integrations done with Posidex, Multibureau, TransUnion, SMS Gateways and many more.

Key Features:

- Available on cloud. Portal can handle multiple clients.
- Pluggable approach makes it easy to support new CRM.
- Highly configurable to handle multiple CRM simultaneously
- Highly scalable.
- Multiple Integrations.
- Multiple business support.

Job Responsibilities:

- Worked as a developer in the project and in business like Consumer Durable, Home Loan, Brand portal and ALL Business.
- Worked on CR, bug fixes and feedbacks.
- Attained daily stand up meetings to plan daily priorities and status updates.
- Involved in code reviews and in optimizing the implemented code/logic for specific functionalities.
- Involved in resource training.
- **Major Implementations** – Samsung Knox, KYC implementations. Instacash Development, Removal of Funding Value workflow, Multiproduct phase II, Emandate Implementation, Trusting Social Implementation (for IDEA customers), Standing Instruction, Dealer Integration (Khosla & Poorvika), E-KYC Implementation, Pre-populated digital app form, Trigger Framework renovation, Add on EBC (Easy Buy Card) based Offer, Popular schemes in Brand portal.

OCT 2018 – NOV 2018
