## PROFESSIONAL EXPERIENCE (4 years)

### Persistent Systems, Pune— Senior Software Engineer
July 2021 - PRESENT

❏ Having 1.3 years of experience in Persistent as a Salesforce developer.

❏ Developed customized Salesforce solutions as per the CRM needs described by the Client.

❏ Ensured proper code coverage before each deployment and kept record of all the changes made.

❏ Being SDE2 I was responsible for working on new features and deployment as I worked in IST zone.

### PROJECTS
**Oakstar Bank's subsidiary BrightOak Portal (Client - US)**
**Duration:June 2021 - till date**
**Role: Sr. Salesforce Dev**

**Project Description:** The BrightOak portal was a platform for the Bank Underwriter who provided funding, Contractors who were responsible for installation of Solar Product and Customers who needed these services.

**Key activities performed:**

❏ Implemented and modified features as per client requirement by creating new LWC, Aura components. Also created VF pages to be displayed in certain scenarios. Used internal salesforce features such as Process Builder, Workflow, Custom Metadata where ever required.

❏ Made sure all test classes are 80%+ covered for each deployment.

❏ Have done deployment on various environments (Dev, QA, Dev2 & Prod env) through Changeset, Git and BitBucket (CI/CD).

❏ Proficient in debugging code using Salesforce Debug log tool and Visual Studio Code.

### Zensar Technologies, Pune—Software Engineer
October 2018 – July 2021

❏ Have 1 years of experience in Development of Rest APIs in Apex Salesforce. Learnt about Salesforce Platform through completion of trailhead modules.

❏ Have 1.5 years of experience in Development of Web based Application using Java technologies and Frameworks like Structs,Spring, Spring Boot, Spring Data JPA, Microservices, with Agile Delivery Model.

❏ Developed Resource API using Spring REST based Restful Services.

## SKILLS

❏ **Salesforce**: Apex, Visualforce, SOQL, Apex Triggers, SOSL, Aura, LWC.

❏ **Web Technologies**: HTML, CSS, JSP.

❏ **Application Server**: Tomcat.

❏ **Tools**: Git, Bitbucket, Jenkins, Postman, Swagger.

❏ **IDE**: Eclipse, TOAD, Visual Studio Code.

❏ **Data Representation Formats**: JSON

❏ **Frameworks**: Spring Boot, Spring Data JPA, Microservices, Mockito for Unit testing.

❏ **Database**: Oracle 11g, MySQL.

## PROJECTS

**Zen Forte Internal Zensar Application(Salesforce)**
**Duration: Mar 2020 - July 2021**
**Role: Jr. Salesforce Developer**

**Project Description:** Internal tool of Zensar for managing their resources. It was used by the management team & Managers for the allocation & deallocation of the resources to different projects according to their skillset. This migration project aimed to completely change the application from Spring Boot-Angular to Salesforce using Apex, Aura and LWC.

**Key activities performed:**
❑ Followed Standard coding principle through Interface in Apex for Dependency Injection.
❑ Implemented backed end REST API using Apex keeping in mind the Governor Limit and Used SOQL and also learnt and implemented Triggers and Schedulers in org.
❑ Provided fixes to the issues identified in the testing phase.
❑ Migrated parts of code to process builder and flow.

**Cisco Portal to Manage Smart Accounts**
**Duration: Oct 2018 – Mar 2020**
**Role: Java Developer**

**Project Description**: The Cisco Portal to manage smart account is a self-serve portal designed to help you complete many types of smart account transaction.

**Key activities performed:**
❑ Implemented backend using Spring Boot REST APIs for various functionalities and Performed Unit Testing by making use of Mocking Framework: Mockito.
❑ CI/CD on various environments (dev, stage & test env) using Jenkins and Bit-Bucket DevOps tool and Provided fixes to the issues identified using logging tools like Splunk and OpenShift in the testing phase.

## EDUCATION

**Bachelors of Engineering in Computer Science and Engineering at N K Orchid College of Engineering and Technology — Solapur**
August 2014 - May 2018
CGPA: 8.45 | Grade: A

**Sangameshwar Junior College, Solapur— *12<sup>th</sup> Class***
July 2012 - May 2014
Percentage: 62.77 | Computer Science Bifocal: 161/200

## AWARDS

**Professional**
