

# AMEESHA PRIYA

SALESFORCE DEVELOPER | TRAILHEAD MOUNTAINEER

## PERSONAL PROFILE

A salesforce engineer with hands on experience on using Apex, VisualForce and SOQL to deliver efficient CRM solutions for clients. I am very proficient in using SOQL/SOSL, implementing Apex classes and triggers and working on data security, handing object permissions, user profiles and sharing rules. I have a keen eye for technological advances and like to keep myself updated with the latest and best in this field.

## PROJECT

### WIKILIVE SEARCH

#### SELF PROJECT | JULY 2020

- This app does a live search across Wikipedia and displays results simultaneously along a the same frame.
  - Used AJAX operations to perform search in real time using the Wikipedia API as the backend.
- You can look it up at :<https://ameeshapriya.github.io/WikiLive-App.github.io/>

### NEWS OF THE DAY

#### SELF PROJECT | JUNE 2020

- Making a news website that updates the advancements in the news along with the editor
  - Used Bootstrap 4 to create an impressive front end with a minimalistic design and used a news API which served as the modal to which JQuery interacted.
- You can look it up at <https://ameeshapriya.github.io/News-Of-The-Day-App/>
