Technical Skill Set

- **Source Control**: SVN, CVS, GIT
- **Project MGMT Tools**: Jira, Azure board, Pivotal tracker
- **Deployment**: Docker, Jenkins , Kubernetes
- **Cloud Services**: GCP, AWS, Azure, IBM , DELL
- **Programming Languages:** JavaScript, GoLang, Objective -C , Swift , C, C++
- **Databases:** MySQL, Postgres, MongoDB , Sqlite
- **Web Technologies:** HTML, CSS, JavaScript
- **Supportive Technologies:** Docker, Jenkins, GCP, AWS, Linux

Key Skills

✔ COE building

✔ Product Roadmap Design & Delivery
✔ Capacity Planning / Building
✔ AWS, Azure, Google Cloud Platform
✔ Establishing IT Governance Best Practices
✔ Digital Transformations
✔ Rescuing Struggling Programmes
✔ Establishing Dev-Ops Best Practises
✔ Mentoring & Developing Technology Talent
✔ New Technology Framework Research New
✔ New Technology Adoption
✔ Product Management & Improvements
✔ People Management & Development
✔ IT Infrastructure Improvements
✔ Running offshore development centers

- **Pre-sales** : Scoping, proposal making and coordination, estimation and planning
- **Domain** : Aviation, Healthcare , E-Commerce , Telecom

PROJECT DETAILS

Organization : FORD MOTORS - Golang Specialist at Infoservices - (Oct 2023 - Present)
- Working as a Google Cloud Architect on a Product for FORD MOTORS called GCCT Knowledge based search engine .
- HandsOn Golang/Python API Developer developing Microservices using GCP services.
- Provision of Infrastructure on FORD GCP using TERRAFORM .
- Develop CICD pipeline using OPENSHIFT Tekton pipelines .
- Working with the Pre-Sales team and developing presentations to help the company get new projects .
- Successfully completed API documentation and Knowledge Transfer before Project Restructuring
- Set up Golang COE and build a GOLANG team for INFOSERVICES and FORD .

Organization : DELL EMC - Delivery Lead from SA Technologies - (2022-2023)
- Involved in Effort Estimation , Scope Freeze and Resource Utilization and Delivery Milestones
- Played the role of a Scrum Master and facilitated client in executing Multiple Sprints
- Successfully delivered 2 Releases before planned Release dates
- Successfully completed API documentation and Knowledge Transfer before Project Restructuring
- Set up Golang COE and build GOLANG team of 15 developers for DELL

Organization : Self-Employed - (2018-2022)
- Responsible for Unit Testing and System Testing the GoLang code .
- Writing Unit Tests and Integration tests for each module .
- Adding Logs , Error Handling , Panics , Defer and Goroutines to improve the performance .
- Code Profiling and Benchmarking to improve function performance .
- Scoping, Proposal Making and Coordination, Estimation and Planning
- Writing AWS Lambda functions using GoLang
- Used AWS SNS , S3 Bucket , Cloudwatch , SES , AWS API Gateway, DynamoDB

Organization : Infovision Labs - Deployed at Mavenir (2017 - 2017) - (Contractual Role)
- Scoping, Proposal Making and Coordination, Estimation and Planning
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Work closely with development team to successfully deliver results
- Coordinating with different teams spread across various Time Zones and geographical regions .
- Managing a team of 10 Mobile Developers

Organization : i-Link Software Pvt Ltd (2016 - 2017) - (Contractual Role)
- Scoping, Proposal Making and Coordination, Estimation and Planning
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Work closely with development team to successfully deliver results

- Constantly analyze bug patterns and identify areas of improvement
- Manage the day-to-day operations of the engineering team, including task allocation and progress tracking
- Worked closely with Dev, QA, Architect, Product Manager, and other stakeholders to identify existing bottlenecks
- Implement Agile Methodology in Project Delivery and inculcate DevOPS culture at Org level

Organization : Compassites INC (2015 - 2016) - (Contractual Role)

Organization : CIBER INC (2015 - 2015) - (Contractual Role)
- Scoping, Proposal Making and Coordination, Estimation and Planning
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Work closely with development team to successfully deliver results
- Constantly analyze bug patterns and identify areas of improvement
- Manage the day-to-day operations of the engineering team, including task allocation and progress tracking
- Worked closely with Dev, QA, Architect, Product Manager, and other stakeholders to identify existing bottlenecks
- Implement Agile Methodology in Project Delivery and inculcate DevOPS culture at Org level

Organization : IQVIA (2013 - 2015)
- Design , Development , Testing and Deployment of Mobile Apps
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Work closely with development team to successfully deliver results
- Constantly analyze bug patterns and identify areas of improvement

Organization : Sonata Software (2012 - 2013) - Deployed at QATAR AIRWAYS
- Design , Development , Testing and Deployment of Mobile App
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Onsite Coordinator for Requirement Gathering , Resource Allocation and Client Handling
- Work closely with development team to successfully deliver results

Organization : Techmahindra Ltd (2011 - 2012) - Deployed at DOHA
- Design , Development , Testing and Deployment of Mobile App
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Onsite Coordinator for Requirement Gathering , Resource Allocation and Client Handling

Organization : HCL (2010 - 2011)
- Design , Development , Testing and Deployment of Mac App
- Participation in Requirement Gathering , Task Allocation and Task Estimation

Organization : Emantras Inc (2009 - 2010) (Contractual Role)
- Design , Development , Testing and Deployment of Mobile App
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Client Interaction and Pre-Sale activities to pitch in for new projects

Organization : UST-Global (2008 - 2009)
- Design , Development , Testing and Deployment of Mobile App
- Participation in Requirement Gathering , Task Allocation and Task Estimation
- Trained over 50 Java , C# and C++ resources and provide Hands-On training on Objective-C and IOS App Development
