Address

15-63/1,

Venkateshwara Temple, Nakrekal,

Nalgonda, 508211, Telangana.

Professional summary

I am an enthusiastic person, and always believe smart work rather than hard work pays. There is infinite amount of knowledge out there and would like to learn whatever I can And also promise to uphold my company's interests and show the progress of work through perseverance and unique strategies to solve a complex problem.

I like to think out of the box and always believe that to achieve success u got to explore yourself and the different domains out there and never think of an idea as futile unless proven wrong

EXPERIENCE

- ❖ **A Novel Regression Framework for Joint 3D Face Reconstruction and Dense**
- ❖ **Gesture-Controlled Game** - Gesture recognition is useful for processing information from humans which is not conveyed through speech or type. The main objective of this work is to control the game with gestures of our hand.
- ❖ **Buying and Selling houses by using xampp as host machine** - These websites are often touted as offering convenience and efficiency for the house buyer and enabling them to narrow down the homes on offer and make an informed market choice.
- ❖ **Indoor Positioning system Using Li-Fi** - Iot device
- ❖ **Created a web page and Hosted on StackBlitz**
- ❖ **Created an API to send Email using SendGrid and Hosted on Heroku**
- ❖ **Predicting user behavior through sessions using web log mining**
- ❖ **Person search with natural language description**
