

## Fullstack Developer

### Summary

Highly adaptable and detail-oriented cloud engineer with a keen eye for detail. Proficient and experienced AWS Fullstack Developer with a strong focus on designing, developing, and supporting efficient and reliable software solutions.

### Work Experience

June 2021 - Present

Mumbai (Hybrid)

#### Cloud Services & Software Engineer - LTIMindtree

- Collaborated with cross-functional teams to develop and enhance the applications, ensuring seamless performance and reliability.
- Translated product requirements into forward-thinking visual designs using React.js by collaborating with product managers, business analysts and user researchers to deliver high-quality code.
- Designed and implemented secure, scalable, and reliable architecture using various AWS services.
- Designed and managed AWS infrastructure with Terraform and Serverless Framework, contributing to the CI/CD pipeline and participating in code reviews to ensure code quality.

December 2019 - January 2020

Mumbai (Remote)

#### Front End Web Developer Intern - TwinTring

- Created a comprehensive website from scratch using HTML, CSS, Bootstrap, JavaScript, PHP, and SQL, featuring a booking system for TwinTring cycles and an integrated shopping portal.
- Actively collaborated with development teams using GitHub (Git) for version control and efficient code management.

July 2019 - September 2019

Mumbai (Remote)

#### Front End Web Developer Intern - SDG India

Incorporated a website from scratch using HTML, CSS, Bootstrap, and JavaScript to facilitate monitoring of government-initiated goals and projects related to environmental and sustainable community development.
