EXPERIENCE

ASCENT BUSINESS

Feb'2020 - Present

Senior Software Engineer

I worked for a business continuity management product termed as AutoBCM.

- ✧ Contributed to team meetings , handling troubleshooting ,development & production problems.
- ✧ Providing insights to enhance the product functionality to improve code quality and product performance.
- ✧ Conduct product training sessions/ orientations, and be the lead resource for Sales & Client Services.
- ✧ Work with the business development team to identify data partnership opportunities and manage partner relationships.

SAKSOFT

May'2019 - Jan'2020

Senior Consultant

I worked in major deliveries and CR Management projects at client TRANSUNION CIBIL.

- ✧ Delivered three major product deliveries with an intention to lessen the manual work and automate the process.
- ✧ Contributed to each project delivery phase (analysis,development,test,ops)
- ✧ Delivered new features in both Agile and SDLC life-cycles. Established self as a CRMExpert and gained trust of clients.

NSEIT

Jun'2018 - Apr'2019

Associate System Analyst

I worked on a product termed as "ENIT- Electronic NSE Interface for Trading Members" where I handled the entire compliance solely.

- ✧ A team player with good communication and logical skills to interact with business and managed team.
- ✧ Gained hands-on experience in collaboration with developers,testers,project managers.

WEB2SUCCESS

Jun'2016 - Jun'2018

Software Developer

Experience in working with 4 different projects and gaining exposure to various processes and technology stack.

- ✧ Excellent organizational skills, with the ability to juggle priorities and projects.
- ✧ Work with the business development team to identify data partnership opportunities and manage partner relationships.
