PROFILE SUMMARY

As a senior Web Developer with over 7 years' experience, I've successfully managed **E-commerce system architecture, IoT software, Invoice management, and multiple projects simultaneously**, each with different codebases. I'm committed to continuous learning, keeping my skills updated to benefit the companies I serve. A dedicated team player, I prioritize supporting my colleagues and fostering a positive team dynamic. Additionally, I'm self-motivated and capable of working independently, even in demanding environments. I thrive on challenges and excel at finding creative solutions, always ready to tackle any issue head-on.

EXPERIENCE

Sayone Technologies , Infopark, Kochi – Sr Software Engineer

MARCH 2022 – PRESENT
