I am a Python Programmer and a web developer has one year of experience. Also I have worked in PHP and WORDPRESS with quite MYSQL database knowledge. Actually I am looking for a suitable industry to grow-up my career and knowledge. A brief detail about myself is I am very much hard worker, great deal with team working, a self-learner, a positive thinker and very helpful and adaptable in nature.

### **EDUCATIONAL QUALIFICATION:**

I have completed B-Tech (degree) in **Electrical Electronics Engineering** from Gandhi Institute of Technological Advancement, Bhubaneswar, Odisha (2018).

### **SOFTWARE SKILLS:**

- Operating System : LINUX (RHEL 7,8), Windows 10 Pro
- Technologies : Python, Django
- Programming Language: Python
- Mark-up Language : HTML, CSS

### **SOFTWARE PROJECT:**

- I have created a basic A.I (Artificial Intelligence) using PYTHON language.
  1. Modules used (pytsx3,speech recognition, os, smtplib, etc)
  2. Basic commands (normal conversation, sending mails, access Wikipedia, etc)
  3. Currently I am developing another feature i.e. Covid19 checker. It will guide us for the proper precautions.

### **PROFESSIONAL EXPERIENCE:**

Worked as *Software Engineer Trainee* in *Allesoft private limited, New Delhi* from the date of April 01, 2019 to May 07, 2020.

**ACADEMIC PROJECT:**

- Title : Wireless classroom automation using Wireless classroom automation using ATmega16 microcontroller (The Brain)
- Programming Language : Embedded C
- Duration : Five Months
- Description : The main purpose of this, is the electricity consumption and can be operate by mobile with Bluetooth connection. When there is no one in the room the light and fan will get turn off automatically because of a sensor, when someone enters the room the light, fan or both will be operated automatically as per the settings given.

**INTRESTS AND HOBBIES:**

- Visiting new places
- Internet surfing to learn updated and advance technology across the world
- Playing video games
