## WORK EXPERIENCE

### Software Engineer CIGNEX Datamatics

05/2020 - Present

#### Achievements/Tasks

- Currently working for **Australia's dominant telecommunications** company to convert the existing telecom flows into Salesforce LWC for accommodating both efficiency and accessibility.
- Successfully converted 4-5 flows in LWC which are already enabled in Production and adding couple of new flows(functionality) for the end user.
- Able to gel up with a large team of people with separate flows to work in a cohesive environment.

### Senior Developer Mindtree Ltd

01/2017 - 05/2020

#### Achievements/Tasks

- Implementation of a force.com site for the users in different regions which can handle the languages localization. Mostly worked on the Change Request and Project Linked Issues tickets. Always maintain code quality with more than 85% of code coverage of all classes. Able to get the CSAT score 7/7.
- Created a complete customized application for the Platform users on Lightning Platform. Implemented communities for a different type of users (such as - Agencies) which helps them to provide quotations and approvals of the rates and prices them quote.
- Created a complex system for creating a SOW (Scope Of Work) which is used as a legal document by the business for budgeting and other information.
- Also being a part of the deployment team for which we use DevOps process using Stash and Git Bash.
