PROJECT

Yard Management System: A Yard Management System (YMS) is a software system designed to oversee the movement of trucks and trailers in the yard of a manufacturing facility, warehouse, or distribution center. YMS provides real-time information on the location of trailers in the yard and allows yard employees to move trailers from staging to docks to fill orders in an efficient manner.

SKILLS

Selenium Webdriver
Selenium IDE
Git / GitLab
Postman
Java
RDBMS / SQL
Data Structures
Algorithms
Jira
