EXPERIENCE

Business Analyst

Sonata Software Limited

May 2019 - Feb 2021

Bengaluru, Karnataka

- Collaborated with business partners and stakeholders to identify and define high level and detailed business/functional requirements.
- Engaged client to gather software requirements/business rules, and ensure alignment with development teams.
- Translated stakeholder requirements into over 10 different tangible deliverable such as functional specifications, BRD Document, SRS Document, user cases, user stories, Workflow/process diagrams, data flow/data model diagrams.
- Engaged client to gather software requirements/business rules, and ensure alignment with development teams.
- Communicated client's business requirements by constructing easy to understand data and process model and translating functional and technical requirements to development teams.
- Identify and reconcile errors in client data to ensure accurate business requirements.
- Conducted 5+ levels of testing including Functional, Regression, UAT, Integration and Performance to verify the client's needs are met.
