## **PROFESSIONAL SUMMARY**

Having 2.8 years of overall experience with Testing, Design and Environment management for web based and window-based applications.

**TESTING:** Smart way in planning the testing so that it can be completed within a short span. Understanding the steps to be followed and performing it in an effective way in order to find out the key check points and raise issues. Test closure, sign off, User-Acceptance Testing and Managing the defects in Jira that are found in the functional and regression testing.

**DESIGN:** Preparing a clear Low-Level Design (LLD) document preparation which has design change, functionality change and flow of order which includes the main check points to be covered in order to achieve a quality deliverable.

**ENVIRONMENT MANAGEMENT:** Managing the environment in order to provide the stable platform for the test engineers to perform an uninterrupted testing. Environment management includes many roles like Interconnect, Fireflow, Migration, Upgradation, Deployment tracking, Ad-hoc environmental issues and application issues, and Defect fixes.

## **SKILLSET**

- **CORE TESTING SKILLS:** Testing techniques, Defect Metrics and Reviews of testing.
- **DEFECT MANAGEMENT TOOLS:**Jira
- **DELIVERY METHODOLOGY:**Agile
- **PROGRAMMING KNOWLEDGE:**Python, JavaScript and Selenium

## **PROFESSIONAL EXPERIENCE**

**Current Company:** Infosys Technologies Limited

**Role:** Test Engineer

**Duration:** June 2018 to till Date.

**Client:** Walmart Inc.

**Team Size:**  
**In Test Team – 9**  
**ADM – 25**

## **RESPONSIBILITIES**

### **Management**

- Tracking the deployments which are the major code deployments and minor defect fixes along with the Live deployments

- Handling the connectivity requests that are to be raised between the interfaces for testing and implementing the Fireflow.
- Leading the Adhoc Environmental and the application issues which are being raised as it will be impacting the testing and development.

## Testing

- Prepared Automation scripts using Javascript in protractor and showed demo to client
- Prepared the sign off reports for main releases and maintenance drops capturing the Proven/Non proven functionalities, Caveats/Condition, Open defects, Risk Statement if any, Recommendation to Users.
- Identifying defects and handling Integration calls for Quick issue resolution for testing without hindrance.
- Performed test execution as well as managed overall sprint deliveries of test requirements including coordination of user acceptance and regression test deliverables.
- Handled Delayed Deployment stories component wise , Ad-hoc request from Client to deliver Critical storie needing a non-release based Live deployment proactively
- Prepared the High-level and Low level Execution plan for the team.
- Prepared the required data for testing initiation, Test Execution, Defect Identification
- **SME:** Have assisted in Service Improvement and Service Delivery activities by designing the Reference manuals to be followed by the Tester community and Testing Velocity improvements and achieved Client satisfaction.
- **Test Designer:** Collected requirements, analyzed customer experience stories, estimated test points, and framed the respective test cases, test scripts along with Components involved.
- **UAT Demo:** Provided Test Results walk through to business stakeholders and sought their confidence in deploying the Functional code to Production.
- Component Level Good Interaction and Handling the Escalation level from Component Team and Client.

## Responsibilities:

- Identifying defects and handling Integration calls for Quick issue resolution for testing without hindrance.
- Performed test execution as well as managed overall sprint deliveries of test requirements including coordination of user acceptance and regression test deliverables.
- Handled Delayed Deployment stories component wise , Ad-hoc request from Client to deliver Critical stories needing a non-release based Live deployment proactively
- Prepared the High-level and Low level Execution plan for the team.

## Key Project Highlights

### Project Name : Workday

**Description :** Application Interface from Workday to Legacy integrations for largest retailer in USA

### Role/Responsibilities:

- Test Engineer – Functional and Automation Tester
- Test scenario and case preparation for SIT phases.
- Defects reporting and following up till closure.
- Involved in Functional Unit Testing , String Testing and Regression Testing
- Attended meetings with third party vendors for data validation.
- Being a Point of Contact, coordinating with onsite-offshore and Sharing Status Report
- Involved in the Defect triage meetings and status calls with Clients and Onsite team

**Tech Stack:** Selenium WebDriver, QMF

### Project Name : Learning Support

**Description :** Application that make the associates to attend the course and learn about some topics

### Role/Responsibilities:

- Senior Test executive – Functional Tester
- Course Creation in Ulearn US
- Course Content Versioning in Ulearn US
- Cohort creation in imperium

**Tech Stack :** Selenium WebDriver, Dbeaver, Unix

**Technical Expertise :**

- Automation Tool:** Selenium WebDriver.
- Tools :** Eclipse , Postman ,FileZilla ,Jira, HP ALM ,Putty, Reflection by IBM for Mainframe.
- Database:** DB2, QMF, SQL, DBeaver for Unix DB.

**EDUCATION**

Degree/ Course	Institution / Place	University / Board	Year of Passing	% of Marks
B.Sc(CS)	Prince shri venkateshwara arts and science College	Madras University	2018	72
XII	C.S.I Corley Higher secondary school	State Board	2015	63
X	Anna matriculationHigher secondary school	State Board	2013	83

**PERSONAL PROFILE**

Name : Harshini  
Father's name : Ganesan  
Date of Birth : 23<sup>th</sup> OCT 1997  
Gender : Female  
Marital Status : Single  
Nationality : INDIAN

**DECLARATION**

I hereby declare that the information furnished above is true to the best of my knowledge.
