Mobile: +91-6301783632

Professional Summary:

- Having 5+ years of IT Experience in Analysis, Design, Development, Testing and Support of Client - Server and Enterprise Integration Applications.
- Having 3+ years of experience in Mule ESB with extensive full Software Development Life Cycle (SDLC) experience in Application Software Specifications, Design, Development, Testing and debugging, Maintenance.
- Developed Restful/SOAP web services in **MuleESB** based on **SOA** Architecture.
- Good at Mule Data Weave component and worked with **exposing API Development** using **RAML**.
- Strong experience in Integration using **Mule ESB** in integration various third-party solutions.
- Involved in Unit testing and writing **MUnit** Test Cases for the flow.
- Utilized MuleSoft features like **Data weave**, **API designer** and **various connectors** to ensure robust and loosely coupled integration layer every time.
- Hands on Experience in using **Mule Connectors** like Webservice Consumer, SFTP, FTP, FILE, SMTP, Http, VM, ActiveMQ, AnypointMQ, JMS, AnypointMQ, as part of Integration Usage.
- Widely experienced with **Mule ESB** in designing and implementing core platform components for API/Services Gateway as well as other technological cross-cutting capabilities and also a contributor to Mule ESB.
- Good experience in Any Point Studio and deploying the application in **Cloud Hub & On Premises** using **MMC**.
- Strong application integration experience using **Mule ESB** with connectors, transformations, Routing, Active MQ/AnypointMQ MQ and JMS.
- Working on Transformation Tools like Data Weave and **Mule Connectors**.
- Exposure to implementing Web Services (WSDL using SOAP protocol).
- Good experience in expose the REST endpoints using RAML (API kit) in Mule.
- Having good experience to write Mule expression language (**MEL**).
- Experience with **API-Led Connectivity Architecture**, Web Service, and messaging security standards, protocols and technologies, including **TLS/SSL**, **O-Auth2.0**, **WS-Security**.
- Experienced with built tools like **Maven** and **CI/CD** tools like **Jenkins**
- Having good Working Experience in **Agile (SCRUM)** methodology.

- Having good working experience in **Jira**.

Certifications:

MCD- Level 1 Certified Developer (Mule 4)

Technical Skills:

- **Mule ESB:** Mule ESB 4.x, Any point Studio 7.x,6.x, Any point Platform/Exchange, RAML, Cloud Hub, MMC
- **Web Services:** SOAP, WSDL, Restful API, XML, JSON.
- **Protocols:** HTTP/HTTPS, SFTP, FTP, JMS, SMTP.
- **Database:** Oracle 9i/10g, SQL Developer.
- **Designing tools:** Mule soft Any point studio, Postman.
- **Tools:** Tortoise SVN, Maven, JIRA, Postman, SOAP-UI, WINSCP, Jenkins, Bitbucket, GitHub.

Experience:

- Working as an Associate consultant for INAVANTAGE SOLUTIONS PRIVATE LIMITED
30-12-2017 to 16-6-2022
- Working as an Associate consultant for FORAY SOFTWARE PRIVATE LIMITED
01-7-2022 to 30-6-2023

Project#1

Project Name : Deluxe
Role : Mule Developer
Client : TCS
Duration : 01-7-2022 to 30-6-2023

ServiceNow attachment & Email Attachment, the Attachment API respects any system limitations on uploaded files, such as maximum file size and allowed attachment types. Email attachment Send Email with Attachment , Email connector can send email with attachment in MuleSoft. we can create different type of attachment payload using data weave transformation and then send it as email attachment.

- Co-ordination with different teams for the requirements.
- Developed the mule flows and interfaces.
- Developed file connectors.
- Developed Munit tests for the mule flows.
- Supported the testing.

- Technology used: File connectors, Cloud Hub, MuleSoft Anypoint platform, API Design, Anypoint connectors, MuleSoft Runtime Environment – 4.3.2, MuleSoft Anypoint Studio, RAML, My SQL, Restful web services, Jenkins, Jira.

Project#2

Project Name : Fat face
Role : Mule Developer
Duration : 22-03-2021 to 16-06-2022

Fat Face has a range of in-store cards for their customers to complete to enter competitions, request a catalogue or request further information from Fat Face. The information is then used by FatFace to process the requests and to keep customers updated with the latest news and offers.

- Co-ordination with different teams for the requirements.
- Have designed RAMLs with libraries/datatypes.
- Have developed APIs using Mule Runtime 4.2.1 with the studio 7.3.4.
- Developed the mule applications for different use cases.
- Technology used: MuleSoft Anypoint Studio 7.3.4, Runtime 4.2.1, SQL, Postman.

Project#3

Project Name : Americana
Role : Mule Developer
Duration : 22-04-2020 to 15-03-2021

Developed Mule applications to integrate aggregator website for online food orders to Business backend system. This involves different use cases like create customer, create order, cancel order and track orders for status.

- Participated in business requirements gathering
- Co-ordination with different teams for the requirements.
- Developed the mule applications for different use cases.
- Supported the SIT and UAT testing.
- Technology used: MuleSoft Anypoint Studio, Anypoint Platform, any point studio, My SQL, Postman.

Project#4

Project Name : Bata
Role : Mule Developer
Duration : 14-05-2019 to 10-04-2020

Co-ordinated with business to understand requirements and developed Mule applications which transfers the orders, inventory, product data from multiple SFTP servers and in return transfers the receipts, bookings and delivery status to main system.

- Participated in architecture Identification for Domain, Business Entities and Business Components.
- Co-ordination with different teams for the requirements.
- Developed the mule flows and interfaces.
- Developed Munit tests for the mule flows.
- Supported the testing.
- Technology used: Cloud Hub, MuleSoft Anypoint, API Design, Anypoint connectors, MuleSoft Runtime Environment – 3.8.2, MuleSoft Anypoint Studio, RAML, My SQL, Jenkins.
