Dear Sir/Madam,

Application for the position of Salesforce Developer

I would like to introduce myself as an energetic, highly organized, thorough and motivated professional with 4+ years of experience in the Software Developer Role. I possess strong analytical and problem-solving skills with a high level of attention to detail. I am also a good team player with excellent communication skills and time management.

I would like to submit my resume for your kind consideration. I am confident that my skills and past experience as a Software Engineer in Salesforce would make a great contribution to your organization. I hold a bachelor's degree in information technology.

**Degree and qualifications : B.Sc Special (Hons) – Information Technology Specializing
in Software Engineering**

Core Technical skills : Salesforce.com implementations

Salesforce certifications : Salesforce Certified Community Cloud Consultant - September 23, 2020

Salesforce Certified Sharing and Visibility Designer - June 19, 2020

Salesforce Certified Administrator - May 14, 2019

Salesforce Certified Platform App Builder - June 28, 2018

Salesforce Certified Platform Developer I - September 1, 2017

Languages known : English, Tamil

Availability : Immediately

Salary Expectation : negotiable

Reasons for leaving : Career development and international exposure

I have attached my detailed resume for your reference, and I would greatly appreciate an opportunity to discuss further on my capacity to serve your company.

Thank you for your time and consideration. I look forward to hearing from you.

Thank you,
S.Thirumagal.

THIRUMAGAL SILUVAITHASAN (Senior Software Engineer)

(5X Salesforce Certified Developer)

No50,4/1,Halifax Tower,Wellawatte, Colombo 06, +94 754303411, sthirumagal93@gmail.com

PROFILE

An experienced Senior Software Engineer with 4+ years of experience in Salesforce Platform working with cutting edge technologies such as Aura,Vsulaforce,Apex and LWC, and is always willing to share the knowledge and help out team members. Think like a customer and make the best solution for them based on their requirements.

My passion is to write clean and readable code that is also easy to test and maintain. I always try to improve my selection of workflow and technology stack to push a little bit further in terms of productivity reliability and find solutions for the real world problems.

EMPLOYMENT HISTORY

March 2018 — Present

Senior Software Engineer, CMS (Pvt) Ltd

SRI LANKA

- Participated in the implementation of high quality, innovative and sustainable software over the software development phases such as "analysis of user requirements, design, development, test, UI testing and integration".
- Responsible for the tasks of preparing the solution designs and code developments by ensuring the quality of the work while serving as a mentor to junior developers and interns.
- Works closely with Lead Developers/Architects in coming up with the Solution Design for implementations.
- Updating the team that I am allocated to on a daily basis and interacting with the customer via JIRA/microsoft teams when certain points need to be clarified.
- Administering my own work and delivering high quality solutions.

May 2017 — March 2018

Associate Software Engineer, Virtusa (Pvt) Ltd

SRI LANKA

- Worked for Salesforce related projects where the system provides the features for their customers and employees.
- Gathered and defined customer requirements to develop clear specifications for creating well-organized project plans.
- Responsible for designing and developing high-performance, reusable, and reliable applications, delivering optimum solutions for complex business requirements.
- Reviewed code, debugged problems and corrected issues.
- Worked closely with clients to establish problem specifications and system designs.

Jan 2016 — Jul 2016

Software Developer (Research), SLIIT

SRI LANKA

- Implemented PICTURE ARCHIVING AND COMMUNICATION SYSTEM (PACS) which helps the Radiology information System (RIS) module to enable the automation of Radiology department requirements.
-
