## INTERNSHIPS/PROJECTS

---

### SALESFORCE PROJECTS AND TASKS ----- <https://trailblazer.me/id/vhj9>

- Build a Data Model for a Recruiting App  
Description - To help recruiting team more efficiently to handle the hiring process we build this app using objects, relationships, page layouts etc.
- Build a Suggestion Box App  
Description - Build a suggestion management app that allows employees to submit and track their Status.
- Build a Data Model for a Travel Approval App  
Description – Until now, company had a travel approval process in place based on emailing Spreadsheets and no central repository, resulting in the inability to report on travel approval activities across the organization, so build a app to meet requirements.
