SHIVAM **VISHWAKARMA**

Email - shivamvishwakarma8869@gmail.com
Phone – 09838980064
DOB – 11 Sep 1997
LinkedIn Profile - https://www.linkedin.com/in/shivamvishwakarma8869
Trailhead - https://trailhead.com/me/svishwakarma

- Total Experience: 2 Years
- Work with cross-functional team members in identifying, evaluating, and developing solutions that meet user requirements by utilizing the SFDC toolkit (e.g. Visual force, Apex, Triggers, Components Workflows and Approvals etc. with end-to-end product development experience).
- Requirement gathering and client interactions on regular basis.
- Exposure to all phases of software development and testing life cycle.

EXPERIENCE

FEBRUARY 2019 – PRESENT
SOFTWARE DEVELOPER, 360 DEGREE CLOUD PVT LTD
Working with 360 Degree Cloud Pvt. Ltd, Faridabad as Software Developer.

EDUCATION

JUNE 2013
HIGH SCHOOL, SSSV INTER COLLEGE
Completed High School with 77.6 % marks from SSSV Inter College.

JUNE 2015
INTERMEDIATE, KISAN INTER COLLEGE
Completed Intermediate with 84.2 % marks from Kisan Inter College.

MAY 2019
B.TECH, MEERUT INSTITUTE OF ENGINEERING AND TECHNOLOGY
Completed B.tech with 75.5 % marks from Merrut Intitute of Engineerirng and technology.

SKILLS

- **Primary Skills** - Salesforce CRM, Force.com, Apex, Visualforce, Lightening Components, Integration, Core Java, C.
- **Web Technologies** - HTML, CSS, Java Script.
- **Tools -** Force.com IDE, Eclipse, Visual Studio CodeData Loader, Import Wizard, Postman.
- **Database -** SQL, SOQL, SOSL.
- **Knowledge On -** IBM Big data Hadoop, Cognos Reporting Tool.

ACHIEVEMENTS

- **Big data Hadoop –** Successfully completed and secure certification on Big Data from **IBM.**
- **Programming in C Certification** - Successfully completed and secure certification on C Language from **NPTEL.**

PROJECT PROFILE

ISTA (International Safe Transit Association)
Client: ISTA (International Safe Transit Association)
Role: Salesforce Developer
Team size: 6

Description: The International Seed Testing Association (ISTA) was founded in 1924 and has more than 100 members worldwide. It is an association of laboratories that are authorized to check on the marketability of seed as defined in various countries' laws. Part of its duties is the definition of methods to determine the ability to germinate, the vigor of seed, and the content of genetically modified organisms (GMOs) in a seed. The test results, as certified by ISTA member laboratories, are accepted by the trading partners of the World Trade Organization (WTO) in international seed traffic.

Roles and Responsibilities:
- Developed a custom-built solution for different modules of ISTA structure such as – ISTA2C, ISTA2B, ISTA1A, 6SIOC, SAMSCLUB, Amazon-6 Over the Box , etc.
- Developed complex triggers that will create/modify/delete various object records based on a certain condition.
- Developed Apex Classes, Visual force pages, Visual force Components Apex Triggers and Custom Objects to provide the simplicity at Front End for end-user and a robust structure at the back-end.
- Complete Admin Setup for the Org as per the requirement of the Client.
- Developed test methods for all the apex triggers & classes and maintained more than 90% coverage.
- The VF Pages are embedded with SLDS which gives it a user interface of Lightning Experience.
- All the VF Pages and VF The coding style allows this to be used in Classic as well as lightning.
- Components are implemented with Lightning Compatible Coding style that allows this to be used in Classic as well as lightning.
- Had a regular interaction with the client on a daily basis. My role allowed me to understand
- the functional requirements and offer technical solutions.
- Worked on Sharing rules and settings, CRUD, and Field Level Security.
- Implemented Field-Sets, custom setting, custom metadata, and custom labels to avoid hard-coding in Apex and Visualforce Pages and Components.
- Developed dynamic Apex classes which will be reused by all the other phases of the project.
- Worked on Process builder and workflow for automation.
- Responsible for UAT hand-holding and ensuring the delivery of each module on time.
- Develop unit test methods for all apex classes & classes and maintained more than 90% code coverage.

Environment: Visualforce, Apex classes, triggers, HTML, JavaScript, CSS, SLDS, Change Sets, Force.com, Eclipse IDE Plug-in, Visual Studio.

Colgate/Palmolive
Client: Colgate/Palmolive
Role: Salesforce Developer
Team size: 4

Description: Colgate-Palmolive Company is an American multinational consumer products company focused on the production, distribution, and provision of household, health care, and personal care products.

Roles and Responsibilities:
- Developed various custom pages to override standard pages and to provide custom functionality to suit business needs.
- Developed complex triggers that will create/modify/delete various object records based on a certain condition.
- Developed Apex Classes, Visual force pages, Visualforce Components Apex Triggers, and Custom Objects to provide the simplicity at Front End for end-user and a robust structure at the back-end.
- Complete Admin Setup for the Org as per the requirement of the Client.
- Developed test methods for all the apex triggers & classes and maintained more than 90% coverage.
- The VF Pages are embedded with SLDS which gives it a user interface of Lightning Experience. All the VF Pages and VF
- Components are implemented with Lightning Compatible Coding style that allows this to be used in Classic as well as lightning.
- Explicitly added CRUD/FLS in all Apex Classes.
- Worked on Process builder and workflow for automation.
- Develop unit test methods for all apex classes & classes and maintained more than 90% code coverage.

Environment: Visualforce, Apex classes, triggers, HTML, JavaScript, CSS, Force.com, SLDS, Change Sets, Eclipse IDE Plug-in.

Georgia-Pacific
Client: Georgia-Pacific
Role: Salesforce Developer

Description: Georgia-Pacific is one of the world's leading makers of tissue, pulp, packaging, building products, and related chemicals. You may recognize our household brands, such as Brawny® paper towels, Quilted Northern® bath tissue, and Dixie® cups and tableware.

Roles and Responsibilities:
- Custom Integration with Zamzar for converting the excel sheets into CSV so that they can be parsed in apex class to create the records
- Developed complex Parsing Classes, Scheduler classes which will be used to parse the CSV files Dynamically.
- Complete Admin Setup (eg - Email Service) for the Org as per the requirement of the Client.
- Implemented Field-Sets, custom setting, custom metadata, and custom labels to avoid hard-coding in Apex.
- Developed test methods for all the apex classes and maintained more than 90% coverage.

- Explicitly added CRUD/FLS in all Apex Classes.
- Develop unit test methods for all apex classes & classes and maintained more than 90% code coverage.

Environment: Apex classes, Change Sets, Email Service, Force.com, Visual Studio.

DECLARATION

I hereby declare that all the above-mentioned information given by me is true and correct to the best of my knowledge and belief.
