## Experience Profile:

- Working as **Associate Consultant Technology** for **Virtusa Consulting Services Ltd Pune** (Oct-2019 to present).
- Worked as **Senior Software Engineer** for **Persistent System Ltd Pune** (Nov-2016 to Sep-2019).

## Academic Profile:

- Bachelor in computer engineering from **PCCOE, Pune in 2016** with honours first class with distinction.

## Technical Skills:

Technology	Version
Java/J2EE	1.6, 1.7, 1.8
Angular	6,7
Spring/Spring Boot/Microservices	4.3
Webservices	SOAP, REST API
Hibernate	ORM 5.4
WebLogic	11
JUnit	5
Oracle	11g

## Achievements:

- **Three** times **Bravo** award winner for resolving complex problems, sincerity and hard work.
- **Two** times **Bravo** award winner team member for excellent team work and collaboration.

## Project Profile:

### Project #3

**NGWFMT – Next Generation Workflow Management Tool [British Telecommunication PLC] [October 2019 – Present]**

**Role-** Senior Java Developer

**Skills-** Core Java, J2EE, Spring Boot, Microservices, Webservices, REST, Oracle, Angular 7, Hibernate, Weblogic, JSON,XML.

NGWFMT is a network planning and management tool widely used in UK for new and existing network implementation. We are implementing this application by using Java, J2EE, Hibernate, Webservices, Angular 7 and spring technologies. This tool is used for registering new site for network connection and monitors all the activities till deployment of complete network. We are working on implementation of create new project from sales force and further workflow management from update and notify journey. We are implementing workflow management tool to manage MDU and its different journeys.

### Project #2

**IBM® InfoSphere® Data Architect(Fully confidential project of IBM) [IBM] [March 2017- September 2019]**

**Role-** Core Java Developer

**Skills-** Core Java, J2EE, Spring, Webservices, REST, Oracle, Hibernate, DB2, JSON,XML.

IBM® InfoSphere® Data Architect (**Fully confidential project of IBM**) is a collaborative enterprise data modelling and design solution that can simplify and accelerate integration design for Business Intelligence, Master Data Management and Service-Oriented Architecture initiatives. Data Architect enables you to work with users at every step of the data design process, from project management to application design to data design. The tool helps to align processes, services, applications, and data architectures.

### Project #1

**IBM® Data Studio (Fully confidential project of IBM) [IBM] [March 2017- September 2019]**

**Role-** Core Java Developer

**Skills-** Core Java, J2EE, Spring, Webservices, REST, Oracle, Hibernate, DB2, JSON,XML.

IBM® Data Studio (**Fully confidential project of IBM**) provides database developers and DBAs with an integrated, modular environment for development and productive administration of IBM DB2® for Linux®, UNIX® and Windows® databases. It also provides collaborative database development tools for DB2 for z/OS, DB2 for i, and Informix databases. Additionally, you can optimize, secure, and simplify database applications that are enabled with InfoSphere® Optim pureQuery Runtime.

Data Studio is a foundational offering that includes support for key tasks across the data management lifecycle, including administration, application development, and query tuning. Data Studio consists of two components, the Eclipse-based client and the web-based console.

## Personal Profile:

<b>Name</b>	: Yuvraj Sargar
<b>Mother's Name</b>	: Vimal Sargar
<b>Date of Birth</b>	: 11 <sup>th</sup> Feb, 1993
<b>Nationality</b>	: Indian
<b>Languages Known</b>	: English, Hindi and Marathi.
<b>Alternate Contact no</b>	: 9284536296
<b>Permanent Address</b>	: At. Post. Deulgaon Siddhi,Tal.Dist. Ahmednagar

## Declaration:

I hereby declare that all the about information provided is true to the best of my knowledge.

**Date:**

**Yours Sincerely,**

**Place:** Pune
