Technical Lead

contact :+91 7093943749

Synopsis

- Over all 10.6 of experience in designing, developing and maintenance of Web and Enterprise applications using **Java/J2EEand SDLC** approaches for software development.
- Expertise in developing applications using MVC frameworks like **Struts and Spring** to connect with web containers.
- Good hands-on experience in various Spring framework modules like **Spring core, Spring MVC, Spring Boot, Spring Data and Spring Security, Spring Cloud**.
- Strong Knowledge on **Micro services design**, Docker and Kubernetes to create, run and deploy containerized applications.
- Good knowledge on plugin distribution systems like **Kafka,IBM MQ** with micro services.
- Expertise in implementing ORM technologies like Hibernate to connect with RDBMS.
- Developed **Restful web services** using JAX RS.
- Experience in working with view rendering Javascript like jQuery with AJAX to make asynchronous calls and browser side frameworks like HTML, CSS and JavaScript.
- Experience with Relational databases like MYSQL, Oracle, Mongo DB and DB2.
- Expertise in working with build tools **like Maven, Gradle** and source code repositories like Git and SVN.
- Worked in deployment and configuration of Application servers such as WebLogic, Apache Tomcat and JBOSS.
- Worked with Jenkins to achieve Continuous Integration (CI) and Continuous Deployment (CD).
- Good knowledge on working with OAuth2.0 to provide authentication and authorization to Rest services by exchanging the Access tokens.
- Desire and ability to share ideas, excellent verbal and written communication skills.
- Over 6 years of experience with Agile methodology for Web Based and Client/Server applications and the project activities including Sprint planning, estimations, Sprint Commitment meetings, QA Demo, Daily scrum calls and Sprint retrospective meetings.
- Strong decision making and problem solving skills.
- Good knowledge on Content Management System Tools like Clickability (Velocity scripting),AEM
- Impressive interpersonal skills, quick learner, adaptability to new environment and a good team mentor.

Education Profile

Degree	College/Institution	University/Board	Percentage/CGPA	Year of passing
MCA	Aditya Engineering college	JNTUK	82.0%	2010
BSC	Gayatri degree College	Andhra University	74.5%	2007
12+	Sri chaitanya Junior college	Board of Intermediate, Andhra	88.3%	2004
SSC	Vidwan School	SSC	80.5 %	2002

Skill Set

Operating system	Windows, Linux
Languages	Java, J2EE, SQL,PL/SQL
Web Technologies	JavaScript, HTML5, CSS3, JSP ,XPath, XML, Ajax/JQUERY, bootstrap
Frameworks	Spring MVC, Spring DAO, Spring Security , Restful web service, SOAP, JUnit 5, Spring Cloud
Web services	JAX-WS, JAX-RS, REST API
Version Tools	SVN, GIT using BitBucket
CMS Tools	AEM(Adobe Experience Manager), Clickability(Velocity scripting)
Data Base	Oracle 11g, MongoDB
IDEs	Eclipse latest
Continuous Integration Tools	Jenkins, Bamboo
Schedulers	Obsidian
Code Quality Tools	SonarQube,PMD
Other Tools	BMC Remedy 7.6, Clickability

Awards AND Recognition

- I have been awarded for **Associate of the Quarter(Q3-17)** and Associate of the month for exceptional performance in the leading team.
- I have been awarded for **Associate of the Quarter(Q2-18)** for exceptional performance in the leading team and for the successful continuous deployments.
- I have been nominated as the “Most valuable team player” for exceptional performance in the team and got selected for the “**WOW**” award.
- Got **PRIDE award from Boeing Client** for in time deliverables and Application migration successfully.
- I have received the best employee **STAR award** from Capgemini for Q3-19 for playing a good team lead role.
- I have been awarded the **Star Award (Q1-21)** and Associate of the month for exceptional performance in the leading team.

Professional History

- ✓ Working as a **Tech Lead** in **Capgemini Ltd ,Hyderabad** from Nov 2018 to till date
- ✓ Worked as a **Senior Developer** in **Cognizant Technology Solutions,Hyderabad** from Nov 2015 to Nov 2018.
- ✓ Worked as a **Technology analyst** in **Infosys Ltd**, Chennai from Dec 2010 to Oct 2015.

Work Profile

Organization: CAPGEMINI LTD.,

(SAP) Feb 2021 – Till date.

Client : SAP

Location : Hyderabad

Role : Tech Lead

Environment : Java, J2EE

Technologies : Java 8, Web services, Core Spring, Spring Cloud, Spring AOP, Spring MVC, Hibernate, JPA, Micro services, Spring boot, Kafka and IBM MQ., HTML5, CSS, JQuery, JavaScript, Ajax & Velocity scripting ,Oracle, Unix

3. Develop detailed program design for application changes and/or major bugs.
4. Responsible for getting approval on the design documents as part of the process.
5. Develop and re-factor existing product features using Java, J2EE, spring.
6. Used Spring Dependency Injection and Aspect Oriented Programming in Agile Java Methodologies.
7. Contributed in designing the DB schema and Microservices
8. Playing team lead role

Organization: COGNIZANT TECHNOLOGY SOLUTIONS.

PRN (Press Releases for Newswire) NOV 2015 – Till Date.

Client : PRN, US
Location : Hyderabad
Role : Sr. Developer
Environment : Core java, Core Spring, Spring IOC, Spring MVC, Spring DAO, AEM (Adobe Experience

Technologies **Manager), Tomcat, Rest Web services,**
 :HTML5, CSS, JQuery, JavaScript, Ajax & Velocity scripting ,Oracle,Unix

Description of the project:

PR Newswire is the global leader in news and information distribution services for professional communicators. PRNewswire is a distribution platform to publish the news. It will collect the information from different third party vendors and to form a riched text.

Responsibility:

9. Involves in Sprint planning for the estimation of efforts for user stories and bugs.
10. Clarify requirements with business owners, perform analysis and design solutions.
11. Develop detailed program design for application changes and/or major bugs.
12. Responsible for getting approval on the design documents as part of the process.
13. Develop and re-factor existing product features using Java, J2EE, spring.
14. Used Spring Dependency Injection and Aspect Oriented Programming in Agile Java Methodologies.
15. Contributed in designing the DB schema
16. Playing team lead role

Organization: INFOSYS TECHNOLOGIES LTD.

2 Project Name MSR RAD Application.

Client Boeing.

Description of the project

The project which I am currently working with is a maintenance project with Boeing's IT team. We are working for their inventory management system and asset management system. We also worked for their help desk. The work is mainly concerned with minor to major enhancement of the above mentioned system along with customizing and defect Fixing of the same.

Role : Technical Analyst in a team comprising 9 members.

Responsibility : 1. Basic work as Developer in java and Remedy.
Maintenance of the Inventory management system, Asset management system and help desk of Boeing.

2. Worked on Java as to support our application basically for reporting purpose and generating catalogs.

3. Gathering requirements and clarifications from Onsite.
4. Sending daily mail communication to onsite.
5. Conducting defect prevention meetings.
6. Version control of the documents.
7. Project management activities like MSR and MTR reports.
8. Planning and conducting technical knowledge transfer sessions.

Duration : From: June 2012 To: Jan 2015

Software : BMC Remedy7.6, Toad, Eclipse.

Database : Oracle 11g

Technology : Spring Core, Spring MVC, Core java, Rest web services

3. Project Name Applicability Tester tool

Client : BOEING

Description of the project: The scope of this project is to develop the Applicability tester tool for the Applicability Updater. The tester will invoke the updater with the appropriate parameters for the mode under test and the Applicability Updater will calculate the affectivity of the mode under test. The tester will compare a set of expected data that was loaded from the test specification XML file against the database in order to determine if the test has passed.

Role : Team member

Responsibility

1. Understanding the client requirements for APPLICABLITY development
2. Implementation of the APPLICABLITY.
3. Module and product testing

4. Involved in bug analysis and bug fixing of APPLICABILITY

5. Quality improvement activities.

Duration : From: Sep 2011 To: May 2012
Software : Eclipse
Technology : Core Java, java Script
Database : Oracle 11g db

4 Project Name TGTMPPOS(TARGET MOBILE POINT OF SALE)

Client TARGET

Description of the project:

M-Pos solution offers a compelling mobile platform with integrated peripherals, enabling store associates to move away from the registers and to handle customer purchases from any location in or near the store. It has an integrated barcode scanner and magnetic card swipe, and also incorporates a handheld mini-register with a user friendly interface that integrates seamlessly with the retailer's existing POS environment.

Role : Team member
Responsibility : Involved in server side development.
Duration : June 2011 to Sep 2011
Hardware : Windows XP
Software : Core Java, Java Scripts.

Areas of Interest

- Object Oriented Programming Concepts
- Developing the Angular/Node applications

Positive Traits

- Self-Motivated and Adaptability with organizational and analytical skills.
- Ability to mingle in the Group easily and effectively.

Personal Profile

- **Name** : Ashok Kumar Yalla.
- **Address** : Solitaire pride, 327 plot,bachupally, Hyderabad, telangana
- **Nationality** : Indian.
- **Sex** : Male.
- **Passport** : Available.
- **Pan Card** : Available.
- **Languages** : English, Hindi, Telugu.
- **Marital Status** : Married

Declaration

I, hereby affirm that all the details presented above are true and accurate to the best of my knowledge.

Date:

Location: Hyderabad.

(Ashok Kumar Yalla)
