Consulting Practice Manager at Oracle Financial Services Software Limited
01-JAN- 2016 – 16-FEB-2021
> Team Lead for FLEXCUBE L3 changes for client CITIBANK ASPAC.

Managing Principal Consultant at Oracle Financial Services Software Limited
JAN 2010 - 31-DEC- 2015
> Team Lead for FLEXCUBE production support for CITIBANK ASAPC.

Senior Consultant at I-flex solutions private Limited
28-OCT-2008 – 31-DEC-2009
> I was working as part FLEXCUBE implementation team for CITIBANK ASPAC.

Module Lead at Satyam Computer Services
15-JAN-2007 – 10-OCT-2008
> I was working as part EDW [Enterprise Data Warehouse] production support team for client CISCO.

Associate Consultant at I-flex solutions private Limited
21-JUL-2003 – 03-DEC-2007
> I was working as part FLEXCUBE production support team for CITIBANK EMEA.

Have working for clients like Citibank (12+ years), CICSO (10+ months).

Have experience in software development, implementation and support.
- o Worked at Citibank Poland for 1.5 years for development, implementation and production support activities, as an I-flex representative.
- o Worked in production support of EDW for CISCO as a Satyam Computer services representative.
- o Working at Citibank Singapore at present for development, implementation and production support activities, as an I-flex and Oracle Financial Services Software representative.

Experience in activities like maintenance of PL/SQL Stored Procedures, Constraints, Indexes, Views, Cursors, Triggers, Query Analyzer script, Database Backup, Recovery, DBMS_UTILITY, DBMS_STATS, DBMS_JOB, DBMS_Scheduler, Hints, Dynamic SQL, SQL Trace, UTL_FILE, TKPROF, Generating AWR Reports, Oracle Advance Queues.

Software Exposure

- Primary Technical Skills   :
  - Oracle SQL/PLSQL programming
  - Oracle Forms/Reports (6i).
  - DWH, informatica
  - Unix shell scripting
  - Python
  - Java, Web Logic ,

- Database : Oracle 8.0/8i/9i/10g/11g/12c, Ms-Access,
  SQL Server 7.0,
  OraaS RAC.
- Operating System : UNIX / Linux/ Windows.

- Other Tools :

  Visual Basic 6.0, SQL*Plus, Crystal Reports 6.0, Java Script, VB Script, SQL * Loader, TOAD, PL/SQL Developer, Informatica 8.1, TWS/AUTOSYS Console Scheduling.

Technology Snapshot:

Oracle PL/SQL, SQL, Oracle 10g/11g/12c, Oracle Forms, PL/SQL Developer, TOAD, SQL* PLUS, Oracle SQL Developer, SQL Loader, Oracle Apex, Oracle Weblogic Application Server, Windows 2000 Server, Windows NT 4.0, Windows XP, Windows 10, Java, UNIX, VSS, Bitbucket/UDeploy.

Modules Worked on In FLEXCUBE (Oracle Core Banking Product):
- Term Deposits.
- Fund Transfer and Payment Workflow.
- Local Clearing.
- Interest & Charges and ICCF.
- Loans and Deposits.
- Messaging.
- Accounting
- Letter of Credit.
- Credit Limits/CFM.
- CASA & GL.
- EOC
- DE & TELLER modules
- Security management systems.
- SI and Liquidity Management.
- Interfaces of FLEXCUBE.
- Bills and Collection
- FX & MM
- Fixed Assets
- FlexGL
- Shadow DB , ZEBRA+, FPS, WCDL 2DO, Genesis-V17 etc.

Educational Qualifications

Degree and Year	Institute	Major and Specialization	% or Class
Master of Computer Applications	Bangalore University	Computers	82 %
B.Sc.	Nagarjuna University	Computers	87%
Secondary (10th Standard)	Z.P.P.H, A.P	General	80%

Brief Descriptions of Projects involved in are given as Following.

PROJECT #1

Project Name	: Citibank ASPAC – L3 Team & Production Support
Technologies	: PLSQL and D2K (Forms 6i, Reports 6i)
Data base	: Oracle 10g/11g/12C/RAC
Client	: |Citibank ASPAC.
Team Size	: 15
Duration	: 10+ years

Brief Aspects Of The Tasks Performed:

- Involved in FLEXCUBE Production Support for all 15 Citibank ASPAC countries.
- Involved in EOD Support escalation/ issues handling for 15 countries most effectively.
- Involved in fixing issues raised with PRBs during L3 production Support team lead.
- Involved in Performance tuning activities (like profiling, memory utilization tuning, database tuning, etc.).
- Effectively involved in EOD batch optimization for all 15 countries.
- Effectively involved in reducing EOY processing duration and in turn system online on EOY
- Extensively worked on bug fixing and performance tuning.
- Involving in Business Process and Design discussions for new features.
- Performance tuning activities (like profiling, memory utilization tuning, database tuning, etc).
- Performing unit testing for the items development /enhancements and supporting them across various stages till successful production implementation.

- Got 2 times I-appreciate award, one time v-applaud award from OFSS for production support initiative taken for improvements on EOD batch, EOY and stabilizing the production environment in Citibank ASAPC.

PROJECT #2

Project Name	: FlexGL (FLEXCUBE GL Split Project)
Technologies	: Oracle10g, D2K (Forms 6i, Reports 6i)
Data base	: Oracle 10g
Client	: Citibank ASPAC.
Team Size	: 6
Duration	: 12 months

Brief Aspects Of The Items Developed:

- Involved in FD preparation for this project which covers all functionalities impacted because of FlexGL project, for Citibank ASPAC and EMEA regions.
- Involved in Meetings with the client and Users for implementation of this project for all 7 countries in ASPAC region
- Effectively involved in Cutover Plan and implementation Plan of this project by country wise and implemented the project within 1 year of time span
- Worked as Team Leader with a team of 4 members and got appreciation from OFS and Client for proper implementation without any issues in production for these counties after production cutover
- Involved in coding using PL/SQL and preparation of Shell Scripts for application related jobs which are used by Tivoli Console
- Effectively done proper analysis of all BO reports used by 7 countries because of FlexGL project and did changes for queries for all impacted BO reports
- Involved in coordination with Eservice request team for ROD setup related to all these impacted BO reports
- Effectively involved in Import and export for skeleton creation, Schema Setup , DB link setup and changing the application units and objects as for the FlexGL split during SIT, UAT and production cutover for all these 7 countries
- Created all jobs and schedules (with proper dependencies) related to FlexGL project, which are used by Tivoli and also involved in changing the schedules in present FlexFE as for FlexGL project requirement
- Involved in all meetings with technical teams such as HPSP, DBA and Citi ASPAC Data Centre for successful implementation of this project

- Got I-appreciate award from OFSS for successful implementation of FlexGL project for all 7 countries.

PROJECT #3

Project Name	: CISCO EDW Project
Technologies	: Informatica 8.1 and $U
Data base	: Oracle 9i

Client	: CISCO
Team Size	: 20
Duration	: 9 months

Brief Aspects Of The Items Developed:

- Involved in Support for BOOKINGS module with is SSOT for all ERP data and for all Cisco-Booked Sales Orders
- Involved in writing ETLs for new Enhancements and involved in Tuning ETLs
- Involved in changes related $U objects
- Involved in ClickStream project Performance Tuning and achieved 50% gain with this tuning.
- Involved in Keystone project related to EDW DB objects optimization and space management.
- Worked as part of production support for CDW Common, Finance , Marketing , Internal , Customer & Sales and Product & Services tracks as part of CISCO Enterprise Data Warehouse (EDW)
- Involved queries development for BO reports related to EDW

PROJECT #4

Project Name	: FLEXCUBE (FCC 3.9 and FCC 4.3)
Technologies	: D2K (Forms 6i, Reports 6i)
Database	: Oracle 8i (for FLEXCUBE 3.9) and Oracle 9i (for 3.9 and 4.3).
Client	: FLEXCUBE EMEA (Poland)
Team Size	: 15
Duration	: 3 years

Brief Aspects Of The Tasks Performed:

- Involved in Support and Implementation of FLEXCUBE 3.9 and 4.3 Project for Citigroup.
- Involved in Enhancements and Retro for FCC 3.9 and FCC 4.3
- Involved in EOD Support for 18 countries effectively (on site – POLAND for 12 months)
- Involved in the production support for all CEEMEA countries
- Involved in the Enhancements for CITI and support.
- Involved in the coding for the Interface Hand-off's(developing procedures and packages) used during EOD
- Effectively involved in conversion from FLEXCUBE 3.9 to 4.3 for KENYA,GABON and UGANDA
- Involved in the TWS setup (Creating packages and procedures need for AUTO EOD) for all WRDC countries
- Involved for forms and packages conversion from Oracle 8i to Oracle 9i for all WRDC countries
- Involved in customization of all SSA (10) countries and to setup the HO concept for all these 10 countries
- Handled all SSA (SUB SAHARA) countries as a Cluster head and production support for all these SSA countries more effectively.
- Worked as a Team Leader for CKI (Citibank and Koram integration) in Korea

Personal Skills:

- Comprehensive problem-solving abilities
- Cross-Cultural Work Environments
- Team facilitator, Team Building and Motivation
- Oral, Written and Verbal Communication
- Willingness to learn and Well-Developed Listening Skills
- Supervision and Mentorship
- Interested and very keen on learning new technologies.

Personal Details:

Father's Name	:	Narasimha Rao Bandi.
Date of Birth	:	03-04-1978.
Nationality	:	Indian.
Languages Known	:	English, Telugu, Kannada and Hindi.
Marital Status	:	Married.
Hobbies/Interest	:	Reading Books.
