Sharvari Moharir

Integration Developer

Profile

Dedicated Integration Developer with comprehensive expertise in Workato, holding Pro 1, Pro 2, and Pro 3 certifications, along with proficiency in MuleSoft. Seeking a challenging role to leverage my certified knowledge in Workato and MuleSoft, coupled with advanced skills in various integration methodologies, programming languages, and tools such as Python, SQL, and API development. Committed to designing, implementing, and optimizing seamless integration solutions that enhance organizational efficiency and drive business success. Aiming to contribute my technical acumen and innovative problem-solving skills to a dynamic team, fostering continuous improvement and staying at the forefront of cutting-edge integration technologies.

Work Experience

Nov 2021 - Present
Capgemini | Pune, Maharashtra

Analyst / Integration Developer

As an Integration and Middleware Developer, I have been instrumental in the end-to-end development and management of diverse projects, showcasing expertise in Workato and MuleSoft. Key Responsibilities:

- **Workato Development :**
 - Independently designed and developed end-to-end projects, demonstrating proficiency in building and testing recipes.
 - Created CSV files and implemented data management processes for Salesforce, Archer, NetSuite, Workday, Snowflake, and other relevant platforms.
- **MuleSoft Integration:**
 - Implemented MuleSoft changes as required by project specifications, ensuring seamless integration with existing applications.
 - Collaborated with cross-functional teams to understand integration requirements and translate them into effective MuleSoft solutions.
- **Airflow Development:**
 - Contributed to the enhancement of Airflow Directed Acyclic Graphs (DAGs) by adding fields and optimizing workflows, resulting in reduction of error rates and improved system stability.
 - Investigated and resolved bugs in Airflow jobs to ensure the stability and efficiency of data workflows.
- **Production Support:**
 - Actively participated in production support activities, efficiently tracking and resolving issues reported in Jira.
 - Proactively addressed queries from team members and subordinates related to existing projects, leveraging a deep understanding of their workings and architectures.

Internship

13 May - 15 June 2019
Quintessential Informatics System | Nagpur, Maharashtra

Web Developer

- Learned about developing a website
- Gained experience working on HTML, CSS and BOOTSTRAP
- Got introduced to PHP and its applications
