linkedin.com/in/aditya-lavania in

6 years of experience in Web Development with the expertise of front-end in HTML, CSS, Bootstrap, Material UI, React.js and Next.js with good knowledge of back-end in Node.js, Express.js, Nest.js and Database skills in MongoDB. I have key skills in the development, design and planning of scalable web applications, systems assessments, and supporting client implementations. I am looking forward to playing a key role in a reputed firm that can offer opportunities for continuous growth and experience in an innovative environment.
