PRATHAMESH PHADTARE (Software Engineer)

Mobile: +919970690558
Email : phadtareprathamesh10@gmail.com

OBJECTIVE

To be associated with a progressive organization gives me scope to enhance my knowledge and skills in accordance with latest trends and to be part of a team that dynamically works towards the growth of the organization.

PROFESSIONAL SUMMARY

- A Total 4.5+ years of IT experience with Application Software Design, Development, Implementation and Maintenance in Microsoft Technologies (C# (Framework 3.5/4.0/4.6), Angular 7/8/10/ WEB API, SQL Server 2017/2019/2022), Azure, HTML, CSS, Bootstrap, SSRS report. Complete understanding of Company process.

- Currently Working as a Software Engineer in Altera Digital Health.

- Coding Experience on C#, Angular 10, SQL Server, Web API, HTML, CSS, Bootstrap, SSRS Report.

- Experience in Preparing and Maintaining project document, troubleshooting document, project status report and unit testing.

WORK EXPERIENCE

Time Period – March 2021 to till now.

Organization – Altera Digital Health / Allscripts [Pune]

Domain – Health Care

Technology – C#, Web API, SQL Server, VB.NET.

Role & Responsibility –

1. Writing WEB API Code.
2. Understanding new requirement in system integration and application requirements
3. Coding, Code review and Code optimization.
4. Writing unit test.
5. Perform regular review of operations with team.
6. Strong Analytical and programming skills in using technology to develop effective complex business solutions.
7. Used TFS (Azure cloud based) for tracking work related data.

Projects –

1. **FHIR**

   The project was developed in C#. This project is based on the WEB API.

   I am working on an implementing web API which gathers all patient related data which is based on the US Core standard resources (Version 4). This patient data was used for the third party (Innovation) team.

   In this project we used C# for WEB API coding and SQL server for SP and gathering patient related information.

2. **EHI Export**

   The project was developed in C#. This is the same as FHIR but here we are supported all the resources which are declared in US Core standard (Version 5).

   We do not have any third-party dependency on this is for internal purposes. Get all the resources data from desktop application.

   Same technology used in this project as FHIR.

3. **QEM Extract, Reporting Registry, Manual Abstraction**

   This project is based on the WEB API & SQL. The project generated patient extract file based on the user selection date from UI.

   In that file mentioned patient health & hospital related information.

   This project change is required every year as per data type change & new requirement.

4. **SQL Auditing Service / Extended Event Reader Service**

   This project was developed in C#, VB, SQL. This project is based on the Auditing System.

   Any operation performed then logged & stored into database for auditing purpose.

Time Period – August 2019 to March 2021.

Organization – Allscripts on Payroll of Mindpool Technologies Ltd. [Pune]

Domain – Health Care

Technology – Angular 8 & 10, SQL Server 2017, SSRS Report, HTML, CSS,

Bootstrap.

Role & Responsibility –

1. Writing Code & Creating UI.

2. Creating SSRS reports.

3. Understanding new requirement in system integration and application requirements

4. Coding, Code review and Code optimization.

5. Writing unit test.

6. Perform regular review of operations with team.

7. Used TFS (Azure cloud based) for tracking work related data.

Projects –

1. **Eligibility Feature**

    This project was developed in C#, Angular 8 and SQL. This project shows health plan related information.

    I mostly worked on UI & SQL related things.

    Used kendo UI, CSS, bootstrap for UI design & SQL Server for SP and other table related work.

    Write unit test for each functionality.

2. **Signature Group feature**

    This project was developed in C#, Angular 10 and SQL. This project shows the active/inactive signature group for patient & physician also physician will assign any group to patient.

    I mostly worked on UI & SQL related things. Same technology used as above only version different.

3. **HIM/SHIM Report**

    The project is based on the SSRS reporting. Implementing & developing report (RDL file).

    Creating reports for health care & create SP, function for getting health data.

EDUCATIONAL   QUALIFICATION

Level	Stream	Institute	Board/University	Passing Year	Obtained Marks
BE	CSE	Bharati Vidyapeeth's College of Engineering, Kolhapur	Shivaji University	2018	70.93%
Diploma	IT	Dr. D. Y. Patil Poly., Kolhapur	M.S.B.T.E.	2015	68.19%
X	General	New High School, Kolhapur	Maharashtra State Board	2011	78.91%

TECHNICAL SKILL

- Operating System : Microsoft Windows
- Programming Languages : C#, Angular 8 And 10, HTML, CSS, Bootstrap, SSRS Reporting.
- Database Software : SQL server (2014/2017/2018/2019)
- IDE : Microsoft Visual studio (2017/2019/2022, Visual Studio Code
- Cloud : Azure knowledge.

PERSONAL DETAILS

- Name : Prathamesh Pramod Phadtare
- Gender : Male
- Marital Status : Unmarried
- Date of Birth : 10th December 1995
- Nationality : Indian
- Languages Known : English, Marathi, Hindi
- Permanent Address : Shri Krupa 1529 'B' Ward, Sangal Lane, Mangalwar Peth, Kolhapur.

Date :
Place : PUNE   **Prathamesh P. Phadtare**
