SUMMARY

Senior Frontend Developer with **4.8+ years** of experience in designing and implementing dynamic web applications. Proficient in **Angular, HTML5/CSS3**, and **JavaScript**, with a strong focus on user-centric design and responsive web development. Seeking a challenging role to contribute my expertise in front-end development to create exceptional user experiences.

PROFESSIONAL EXPERIENCE

U.S.T

Senior Software Developer

March 2022 – present | Pune

- Developed and implemented a reusable component library, Resolvers, and Modules in Angular, resulting in a **40% reduction in development time** for multiple applications.
- Worked on **micro-frontend** applications.
- Translated designs and wireframes into high-quality code, focusing on performance, readability, and reusability.
- Developed a robust **authentication** system using JWT tokens and **OKTA OIDC integration** for secure user access
- Developed custom services (**API Integration**) to manage application state and communicate with back-end APIs
- Accelerated project timelines by actively participating in Agile development processes, consistently **achieving sprint goals** and maintaining an impressive **97%** on-time project delivery rate
- Involved in different POC's as per the project requirements.

Tata Consultancy Services

Software Developer

June 2019 – March 2022 | Pune

- Used frameworks such as **Angular, Bootstrap, HTML CSS** and programming languages like **JavaScript** for front-end web development
- Involved in **UI/UX design strategy**, UI requirements and converting findings into UI designs.
- Implemented best practices for **code quality, including modularization, code reusability**, and adherence to coding standards.
- Collaborated closely with backend developers to design and integrate **RESTful APIs**, ensuring seamless data flow and application functionality.
