Mobile: 9642782282 | Email: hariffa2864@gmail.com

EXPERIENCE SUMMARY

- Having around 3.3 years of total experience into IT Industry as a QA with Manual and API Testing
- Expertise into Software Development Life Cycle, Software Testing Life Cycle and Bug Life Cycle
- Involved each phase of SDLC and implemented with Agile framework
- Work experience into Agile scrum with ceremonious
- Good understanding of user stories and analyze as per Acceptance criteria
- Design the test scenarios and test cases for UI and APIs as per Swagger and Functional documents
- Hands on Experience into Restful API Testing with POSTMAN Tool
- Having good knowledge of REST Testing using SOAP UI, RC and ARC.
- Having good exposure on **URL, JSON, HTTP Methods** and **HTTP Status Codes**.
- Good exposure into Collection variables: Local, Global and Environment variables
- Exposure into API Chaining and JSON validation using POSTMAN snippets
- Explore the JSON file and validate the same in POSTMAN by writing the Json path
- Review the test cases and test scenarios and upload into JIRA for execution
- Experience into Database Testing using SQL queries for validate Data
- Knowledge on Mobile App testing and Cross browser testing techniques
- Involved in All Types of **Functional, Regression testing, GUI testing, Smoke testing, Sanity testing, Exploratory Testing and Ad-hoc testing**
- Experience in preparing **Test Cases, Test Execution**, analyzing defects and interacting with development team members in **fixing the Defects**.
- Work experience into test API s and Application with different environments (QA/TEST/Stag)
- Hands on experience in using **JIRA** as a Test Management tool.
- Work experience in **Agile** environment and scrum frame work
- Good knowledge on e-commerce and Retail domain
- Good communication, Presentation skills and ability to quickly adapt to the technical environment.
- Commitment to work, Quick Learner, Resilience and willing to take Instructions and Responsibilities.

PROFESSIONAL EXPERIENCE

- Worked as a QA Engineer in **Cergis Software Solutions Private Limited**, Hyderabad from May 2019 to till date

EDUCATION

- Completed Graduation in B-Tech from PVP Siddharatha Institute of Technologies, Vijayawada in the year 2019

TECHINACAL SKILLS

Operating Systems	Windows OS
Languages	MySQL, XML, JSON, Json Path
Testing concepts	Manual Functional, API Testing and Database
Web Services Tools	POSTMAN and REST Client

Test Management & Bug Tracking Tools	JIRA
Web services	SOAP and REST
Database	Oracle, MySQL and SQL

PROJECT PROFILE

Project#1

Project Name: ARG

Client: Ascena Retail Group, US

Team Size: 10

Technologies: REST and MySQL

Environment: REST, JSON, POSTMAN, MYSQL, JIRA and SQL

Description:

Ascena Retail Group acquired Maurices Inc. from American Retail Group. Ascena Retail Group expanded into the girl's clothing market by purchasing Tween Brands. Limited Too changed its name to Tween Brands in 2008, and the company had almost completely converted its remaining Limited Too stores to Justice stores at the time of the Ascena acquisition. Ascena Brands announced the closure of all remaining limited too stores to Justice Stores as well as the online website after the brand was sold to Blue Star Alliance LLC.

Roles & Responsibilities:

- Analyzing and Understanding the Requirements and Functional Specification of the application.
- Understanding Business requirements and analyzing the client specifications
- Involved into Sprint planning meeting and discuss about the User stories
- Update the Daily status to the Team in scrum meeting and discuss the Bugs as well
- Hands on experience in API testing using POSTMAN tool
- Strong knowledge in HTTP Methods & Http Status codes
- Good Understanding in URI & JSON and Headers
- Good exposure into JSON payload and validate the same using Snippets
- Validating / Preparing the Request data in JSON format
- Good experience to use Headers and Authorizations to Rest services in Postman
- Hands on experience to use collections for share and Group execution
- Good knowledge on runner for executing APIs
- Experience in generate Reports using Newman for CMD and HTML reports
- Practical knowledge on Data and Endpoint parametrization
- Good experience into Data Driven testing using POSTMAN with CSV/JSON files
- Hands on experience into Environment setup and execution in POSTMAN
- Execution of the Test cases with the support of team and at the same time, leading the team to reach the targeted execution per day.
- Performing Regression, Functional Testing, Ad-hoc Testing and Smoke Testing
- Testing data in database by writing SQL Queries.

- Executed the regression suite to test the application stability for existing functionality.
- Expertise in Defect Tracking and Management Process using JIRA
- Excellent troubleshooting and problem-solving skills
- Proficient in SQL Queries to test the data after executing transactions
- Preparation of Daily status report and Weekly status report

Project#2

Project Name: Morrisons Retail

Client: Morrisons groups, UK

Team Size: 10

Technologies: REST, API and MySQL

Environment: REST, JSON, POSTMAN, MYSQL, JIRA and SQL

Description:

Morrison supermarkets is the fourth largest chain of supermarkets in the United Kingdom and is Head quartered in Bradford, West Yorkshire, England. It is an online food and grocery retailer which provides delivery service to its customers through various online home delivery channels.

Roles & Responsibilities:

- ✎ Involved into Sprint planning meeting and discuss about the User stories
- ✎ Update the Daily status to the Team in scrum meeting and discuss the Bugs as well
- ✎ Understand the user stories and prepare the analysis document to team
- ✎ Scripting the Test scenarios and Test cases for User story and review the same
- ✎ Imported the Test cases into JIRA and prepare the cycle summary
- ✎ Performing Regression, Functional Testing, Ad-hoc Testing and Smoke Testing
- ✎ Testing data in database by writing SQL Queries.
- ✎ Executed the regression suite to test the application stability for existing functionality.
- ✎ Expertise in Defect Tracking and Management Process using JIRA
- ✎ Hands on experience in API testing for REST services
- ✎ Experience to API services using POSTMAN tool
- ✎ Strong knowledge in HTTP Methods & Http Status codes
- ✎ Good Understanding in URI, JSON scripts and Headers
- ✎ Validating the response JSON data using JSON-path tools and snippets
- ✎ Hands on Experience to Perform Data Driven Testing using POSTMAN Tool
- ✎ Validating / Preparing the Request data in Json format to submit the API services
- ✎ Good experience to use Headers and Authorizations to Rest services in Postman
- ✎ Hands on Experience to use collections and Environments in POSTMAN tool
- ✎ Experience into API chaining using POSTMAN Snippets
- ✎ Excellent troubleshooting and problem-solving skills

DECLARATION

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Date:

Place: Hyderabad.
