Female

About Me

Overall 7+ ,Relevant Experienced Angular Developer with 4.5 years in HTML,HTML5,CSS2,CSS3,NgRx,JavaScript,AJAX,JQuery,JSON,Bootstrap,Visual Studio Code,GIT,PLSQL,oracle,MySQL,Windows,Agile,Angular,JIRA

Profile Summary

With 4.5 years of experience as a front-end UIWeb developer, I have strong technical skills in complex website development and web-based applications. I have extensive experience in developing highly interactive web applications utilizing JavaScript, HTML5, CSS, JSON, Angular, and Bootstrap, and integrating Restful API's. I have a deep understanding of web technologies and standards, which allows me to deliver the best experiences across web and mobile devices, including responsive Web UI. I have worked extensively with CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements, and CSS Behaviors in CSS. I have also worked on various version control systems like GITHUB and have been a part of Agile Development processes.

Education

Online Shopping

Online shopping is a form of electronic commerce which allows consumers to directly buy goods or services from a seller over the Internet using a web browser. Consumers find a product of interest by visiting the website of the retailer directly or by searching among alternative vendors using a shopping search engine, which displays the same product's availability and pricing at different e-retailers. Online stores typically enable shoppers to use "search" features to find specific models, brands or items. Online customers must have access to the Internet and a valid method of payment in order to complete a transaction, such as a credit card, an Interact-enabled debit card, or a service such as PayPal.
