## Summary

Experience- 4.5 yrs. (Selenium+java+TestNG+Cucumber+Rest API)

- Around 3.3 years of relevant hands-on experience in Functional, Test automation, API Testing and 1.2 years in Application Support experience.

## Experience

### Associate Projects

Cognizant

Nov 2021 - Mar 2023 (1 year 5 months)

#### Role and Responsibilities: -

- Worked on tools like Rally, JIRA, AccelQ, ALM QC, Selenium, Cucumber, Oracle, MS-SQL Server, Postman API, Rest Assured, GIT/GIT hub, Jenkins and Maven.
- Expertise in Test Automation using Selenium WebDriver along with Java, Cucumber, TestNG, Junit and Rest-Assured library.
- SPOC for HT/TPA Module
- Utilized strong database skills with SQL Server/Oracle to perform testing and validate data integrity.
- Expertise in writing effective and accurate XPATH expressions to locate elements during in sprint automation.
- Involved in migration activities from Selenium Framework to AccelQ.
- Worked with JSON and XML programmatically using Java for data manipulation and verification; Hands on experience with Postman API & Rest Assured library.
- Knowledge in data-driven framework using Apache poi.
- Experience in Smoke, Sanity, Regression and End-to-end testing activities.
- Exposure to Project implementation, execution, and maintenance activities.
- Well versed in Agile based Scrum Framework.

### Quality Engineer L1

Prosaic Technologies

Nov 2019 - Nov 2021 (2 years 1 month)

#### Role and Responsibilities: -

- Test case development and execution as per the requirements.
- Ensuring the Quality of the code is maintained through code review.
- Attending daily stand-up meeting for clarification.
- Experience in analyzing functional requirements and translate them to test cases
- Using Apache poi with Selenium web driver for Data-Driven Testing.

- Developing test plan, test scenarios and test cases based on Functional Specifications for performing Functional and Regression Testing.
- Reviewed Test Scenarios and Test cases written by Peers.
- Involved in Service testing for Elevate Services and published Execution dashboard to the stake holders.

## Team Member

FIS

Sep 2018 - Nov 2019 (1 year 3 months)

### Role and Responsibilities: -

- Application support and batch execution of provided jobs.
- Opening and closing of provided jobs/tickets.
- Technical support to switch team
- Published Project daily status reports and defect status reports to the stake holders.
- Involved in Service testing for Elevate Services and published Execution dashboard to the stake holders.

## Education

**C.V.Raman College of Engineering**

Bachelor of Technology, Applied Electronics and Instrumentation

2012 - 2016

## Licenses & Certifications

**PMMI Mechatronics: Programmable Logic Controllers 1 (PLCs) - Bosch Rexroth**

**Business English Certificate - Cambridge University Press & Assessment**

## Skills

Java • Selenium WebDriver • Postman API • RESTful WebServices • SQL Server Management Studio  
 • Regression Testing • Project Management • Agile Methodologies • JSON • Linux  
 • AccelQ
