

# Anjali Lade

**RPA DEVELOPER**  
**DYNACONS SYSTEMS & SOLUTIONS LIMITED**  
**9766083349**  
**anjalilade1212@gmail.com**

## OBJECTIVE:

Looking for a suitable job role in the Automation Industry to utilize my 3.1 years of experience in **Robotic process Automation** by using tools like **UI Path and Blue prism**. Also known about different protocols such as Database SQL, Web Services. To work in a quality environment, where my Knowledge, experience can be shared, enriched and to work as a key player in challenging and creative environment.

## TECHNICAL SUMMERY:

- Proactive in designing **BOTS** by using Re-framework, Sequence, Flowchart and State Machine.
- Adept in Robotic Process Automation Solution designing, Testing, Debugging and documentation.
- Comprehensive Experience in using **UI Path Studio**, Orchestrator, Assistant, Screen, Data & Web Scraping techniques.
- Utilized Screen Scraping methods such as Full text, Native and **OCR engines like (MS OCR engines/Google OCR)** extracting bigger blocks of text, text position on screen, color for and other granular information of text using UI path studio.
- Maintaining and modifying solution and **Documentation**.
- Experience in all phases of **RPA life cycle** from process requirements gathering, solution designing, Object and process development, testing and deployment.
- Managing and investigating **Exceptions**.
- Concise and clear in Best Practice to be followed during development phase.
- Proven Experience in managing **Collection** and input-Output and startup parameters.
- Profound in **Control Room, Session management**.
- Strong Exposure in **Automating Windows and Web based Applications**.
- Worked on Available Process, Available Resource in Control Room.
- Hands-on experience with **visualization tools** such as **MS Excel**.
- Having **3.1 years** of experience in **Robotic process Automation**.
- Provide a expert support in Business process diagrams and process flow charts with **RPA** tools.
- Created documents like PDI, ODI.
- Knowledge in process walkthrough and feasibility checking.
- Involved in Full Software Development Life Cycle (SDLC).
- Worked on Process Definition Document (**PDD**) step by step keystroke level.
- Responsible for end to end design and development of Business Objects,Processes for **Web based, Windows based**.
- Finding automation opportunities and automating those processes.
- Conducting unit testing and System testing.
- Constructing the end-to-end execution for different processes using Attended and Non-Attended Bots.
- Certified **UI Path Foundation Developer**.
- Intensive experience in Automating **Thick and Thin client Application**.
- Extensive Experience in automating **PDF, Excel, Word Documents**.

## ACADEMICS:

**Bachelor's of Engineering**  
**Pune University - 2019**

## WORK EXPERIENCE:

**RPA DEVELOPER**  
**DYNACONS SYSTEMS & SOLUTIONS LIMITED From July 2019 to 2023**

## TECHNICAL SKILLS:

RPA Tool	:	UI Path-2020.10.6, BluePrism-6.10.4
Bug Tracking Tool	:	Jira
Databases	:	MS SQL Server 2017
Operating Systems	:	Unix, Windows 7,10
Programming Languages	:	HTML

## PROJECTS:

### PROJECT #1

<b>Title</b>	:	Batch Automation
<b>Client</b>	:	Paycom, Us
<b>Domain</b>	:	Banking
<b>Role</b>	:	RPA developer

## DESCRIPTION:

The process was repetitive, so the requirement was to automate the process via RPA tool UI Path. Have created BOTs which interacted this web application, data was Extracted Using API, which was used to input to application and then complete request process was automated .

## RESPONSIBILITIES:

- Understanding the requirement of process to make process based Bots.
- Creating Bots using tool to automate the end to end process.
- Involved in consolidating all the critical issues in the project discussing with client team to get resolution.
- Assist and support implementation team members.
- Involved in Full Software Development Life Cycle (SDLC).
- Involved in creation of PDD (Process Definition Document) with BA.
- Created documents like PDI, ODI.
- Involved in process walkthrough and feasibility checking.
- Developing application logic and run the flow of application.

### PROJECT #2

<b>Title</b>	:	Master Card
<b>Client</b>	:	PAYCOM , US
<b>Domain</b>	:	Banking
<b>Data base</b>	:	SQL SERVER 2012, 2017
<b>Role</b>	:	RPA Developer

**Organization**

:

**DYNACONS SYSTEMS & SOLUTIONS LIMITED**

**DESCRIPTION:**

The process was repetitive, so the requirement was to automate the process via RPA tool UI Path. Have created BOTs which interacted with windows and web based application, data was Extracted from Excel, which was used to input to application and then complete request process was automated .

**RESPONSIBILITIES:**

- Implemented End to End Robotic Process Automation (RPA) in the banking sector using UI Path.
- Performed process assessment, RPA feasibility of processes involving the web, mainframe and windows based applications.
- Performed tool evaluation and feasibility to help in selecting a suitable Automation tool for RPA implementation.

**PROJECT #3**

**Title** : Payroll Management systems  
**Client** : Paylocity, US  
**Role** : Desktop Support Engineer  
**Domain** : Payroll Domain

**RESPONSIBILITIES :**

- Processing and Support.
- Process Monitoring and Control.
- Scheduling the processes.
- Maintaining Execution Report

**PERSONAL DETAILS:**

▪ **Address** : F-09, Moru Apartment, Gandhipeth, Chinchwad, Pune- 33-411033  
▪ **DOB** : 20/10/1996  
▪ **Gender** : Female  
▪ **Languages** : English, Hindi, Marathi  
▪ **Marital status** : Single  
▪ **Nationality** : Indian

**DECLARATIONS:**

I hereby declare that all above-mentioned information is in accordance with fact or truth up to my knowledge and I bear the responsibilities for the correctness of the above-mentioned particulars.

**Date:**

**Place: Pune**

**Candidate Name**

Anjali Bajarang Lade.
