OBJECTIVE

To seek a dynamic and challenging career in an organization strives for excellence with my knowledge and team efforts while making positive contribution to promote the individual opportunity and professional growth.

PROFESSION SUMMARY

- 4+ years of experience as a Web Application Developer using Python and Django.
- Experience in working with database like MySQL and MongoDB.
- Hands on experience in Web application development using Python, Django, DRF(Django Rest Framework), Django ORM, Flask, SQL Alchemy(ORM), Angular, Postman, Swagger
- Proficient in designing and implementing RESTful web services using Django, DRF, Flask, Postman.
- Working knowledge of object-oriented and functional aspects of python programming.
- Proficient understanding of code versioning tools such as Git, Github and Bitbucket.
- Worked on Heroku, Python Anywhere hosting
- Good understanding of front-end technologies, such as HTML5, CSS3, Javascript, Angular, React, Redux, Bootstrap.
- Basic understanding of Loggers, Pytest, Unittest.
- Experienced with full software development life cycle, architecting scalable Platforms, database design and Agile methodology.
- Ability to write reusable, testable and efficient code which others can work on.
- Dedicated to meet guidelines of requirements and adopt quickly into any kind of environments.
- Ability to take responsibility and work with team.

PROFESSIONAL EXPERIENCE

Working at Persistent systems from: 25 August 2022 - Present.

Worked at Bajaj Finserv as a Software Developer from : May 2021 – August 2022.

Worked at Logiciel Infotech as Software developer from : July 2018 – May 2021.

TECHNICAL SKILLS

Programming language : Python

Back-End Technology : Django, DRF, Flask

Front-End Technology : Angular, React, Redux, Bootstrap, HTML5, CSS3, Javascript, Typescript, JQuery

Database : Mysql, MongoDB

Cloud Service: AWS (Learning)

Operating System : Windows, macOS

Project Management Tool : Jira Software

Version Control System : Git, Github, Bitbucket

Development Tool : Visual Studio Code, Pycharm, Jupyter notebook

PROJECT EXPERIENCE HIGHLIGHT - 1

Project : Mutual Fund

Core Technology Use : Python, Django, DRF, Postgress, MongoDB, AWS, Jenkins, Docker, Cronicle

Description : Mutual Fund is an vehicle where many investors pool their money to earn returns on their capital over a period. This corpus of funds is managed by an investment professional known as a fund manager or portfolio manager. It is his/her job to invest the corpus in different securities such as bond, stock, gold and other assets and seek to provide potential returns. The gains (or losses) on the investment are shared collectively by the investors in proportion to their contribution to end.

Micro Services - 1:

Name : Personal Data Verification Service.

Core Technology Use : Python, Django, AWS, MongoDB, Docker, Jenkins

Description : In this service we extract data from documents like PAN Card, Aadhaar Card, Driving License, Passport, Voter ID

Micro Services - 2:

Name : Cheque OCR Service.

Core Technology Use : Python, Django, AWS, Postgress, Docker, Jenkins

Description : In this service we extract data from Cheque Images of user.

Roles and Responsibilities :

- Involved in developing Back-End components for each functionality.
- To write API's along with correct business logic.
- Involved in creating database for storing user's data.
- Worked on developing reusable components using django modules.

- Deploy code on env like DEV, QA, UAT.
- Requirement understanding and estimation of the tasks.
- Owner of two Micro Services (fix bug if any)
- Responsible for Database migrations on DEV, QA, UAT env.
- Interact with vendor for their API related issue.
- Updating daily activities and responsibilities on jira, and work status on Git.
- Integrating AWS services in project.
- Production support and fix production bugs.

PROJECT EXPERIENCE HIGHLIGHT - 2

Project : MOW-Make One's Way

Core Technology Use : Python, Django, DRF, Angular, Mysql

Description : MOW-Make One's Way is a web-based solution to help to automate processes for travel agent, tour operator related to trips through reporting, booking management and invoicing tools. manages business process and Improve client's travel processes. Reduce operational costs and Increase business profitability

Roles and Responsibilities :

- Involved in developing Back-End components for each functionality.
- Involved in developing Fron-End componants
- Involved in creating database for storing user's data.
- Worked on developing reusable components using django modules.
- Worked on developing restful APIs for end to end responses.
- Requirement understanding and estimation of the tasks.
- Writing reusable object oriented python code and performing debugging for fixing bugs.
- Working with enhancement team to increase functionality and better usage of the product.
- Updating daily activities and responsibilities on jira, and work status on Git.

PROJECT EXPERIENCE HIGHLIGHT – 2

Project : DeallnTrade POS

Core Technology Use : Python, Django, Angular, Mysql

Description : DealInTrade POS is billing & invoicing software. It manages billing, inventory, accounts, CRM, barcode stickers, and sales reports to boost businesses. DealInTrade POS is an all-inclusive POS software solution that takes care of all business needs. DealInTrade POS makes store management easier. It is a very efficient POS system software. In addition to that, it provides extra features to boost sales. It takes care of financial accounting, taxation, sales, and purchases, among many others.

Roles and Responsibilities :

- Worked on Back-End development.
- Worked on Front-End development
- Involved in creating database Module for storing Data.
- Worked on Test Module
- Interact With Client And Understand Their Requirements and Implement Accordingly.
- Requirement understanding and estimation of the tasks.
- Update daily code on Git.

EDUCATION DETAILS

Bachelor of Engineering in Computer Science and Engineering from Sant Gadge Baba Amravati university.

Year of passing : 2017

PERSONAL DETAILS

Address : Karve Nagar, Pune, 411052

Nationality : Indian

Languages : English, Marathi, Hindi

DECLARATION

I hereby declare that all the details mentioned above are true to the best of my knowledge.

Date : / /

Place :

(Shubham Chavhan)
