PROFESSIONAL SUMMARY

Technology leader with over 13 years of experience. Proven history of success leading large transformational programs for major clients in multiple industries. Expertise in building data analytic solutions using cutting edge technologies and public clouds(AWS,GCP). Demonstrated commitment to developing and leveraging strong relationships with client executives. Thought leader with demonstrated strategic thinking capabilities and skills.

PROFESSIONAL EXPERIENCE

Deloitte

May 2018 - Now

- ❖ Managed successful delivery of multiple project streams on GCP building Data,ML products and IoT solutions.
 - NLP Analytical Solution
 - Application Modernization(Supply Chain)
 - Healthcare solution
 - Push button integration(IoT)
- ❖ Designed and managed delivery of cloud-centric big data products which allowed customers to submit large-scale extractions of content from ERP and a variety of source systems on AWS as part of M&A initiative
- ❖ Responsible for building and delivering various cloud-first initiatives which helped drive adoption of GCP and AWS.
- ❖ Managed the professional growth for data engineers/Analysts by creating a consistent feedback loop and bi-annual professional development plans.
- ❖ Built and led delivery large-scale data pipelines utilizing a combination Cloud and Big data solutions
- ❖ Establish a team of data engineers to deliver multiple products with parallel delivery timelines.
- ❖ Worked with supply chain, media, technology and retail customers in providing cloud solutions.

Tech stack: AWS, GCP, GKE(Kubernetes) and Spark

USAA*

May 2017 – May 2018

- ❖ Designed and modernizing Enterprise Customer Data warehouse using Hortonworks
- ❖ Design, Architect, and help Maintain scalable solutions on the big data analytics platform for enterprise CDW.
- ❖ Building scalable distributed data solutions using Hive, Python, Spark and Hadoop.
- ❖ Accomplished multiple Prototypes and POCs for the product & modules.
- ❖ Designed Hive data models and converted data from DB2 into Hortonworks(Hive)

Tech stack: Hortonworks, Hive, IBM Big Integrate

Neiman Marcus*

Feb 2014 – April 2017

- ❖ Manage/Lead a team of developers and analysts in building analytical solutions using Hadoop as a data lake.
- ❖ Providing roadmap to implement analytical dashboard solutions using cutting edge technologies like Spark, Storm, Kafka, Hadoop, Vertica
- ❖ Devised and implemented the next generation architecture for more efficient data ingestion and processing.
- ❖ Performed strategy and implementation of conversion from Netezza to Vertica to support the data warehousing solutions.
- ❖ Built reusable frameworks and performed POC's to support the company's long term cloud strategy.

Tech stack: Cloudera Hadoop, Spark, Storm, Kafka, Vertica and AWS

USAA*

Nov 2012 – Feb 2014

- ❖ Lead a team of developers in building ETL Solutions.
- ❖ Designed ETL Framework to maintain/monitor enterprise level ETL processes.
- ❖ Design and built processes to validate and reconcile data between source and target systems
- ❖ Providing change management solutions to promote data pipelines/workflows from dev to production.

Tech stack: Informatica, Hadoop and Netezza

Wells Fargo*

Aug 2012 – Nov 2012

Worked as a Data specialist in migrating workloads from SAP data integrator to informatica power center

JP Morgan Chase*

Aug 2011 – Aug 2012

Worked as a ETL Data Engineer at JP Morgan Chase in building data pipelines using rules engine to service mortgage side of the business. Built new data marts to support letter generation for mortgage servicing side. built and support the change management process to promote code into production using change management process.

Target Base

Jan 2009 – Aug 2011

Worked as an Information analyst/Developer in building customer data warehouses using traditional ETL tools like informatica and databases Oracle Exadata. Designed dashboards for click activity and online registrations and subscription to newsletters. Helped analytic teams in segmentation as well as in email campaigns.

EDUCATION

MS, Texas A&M University - Commerce

BE, Osmania University, Hyderabad, India

*Worked as a Consultant
