coursework & projects

IOT   June 2019 to September 2020
STUDENT

I have joined with EXCELR SOLUTIONS HYD at Madhapur... @@@ Here i have done IOT (Internet Of Things) course in the duration about 3months, so i liked this new stuff. @@@ IOT is good technology here to be connect avery physical device with internet and then connect to cloud. @@@ IOT this technology is now millions of devices connected with globally in Future we can expect billions of devices connects,control,monitors with globally. @@@ Here this technology grows highly and one of the key feature of cloud, so many cloud providers are available like AWS,Azure,Google & ThinkSpeak etc... @@@ I have worked on Arduino,node MCU & Raspberry pi 3 of a different boards. @@@ Here used and worked on some sensors are those LM35(Temperature Sensor), Obstacle detector, Bluetooth module & MAX 232(WI-FI Module).
