

## VISHNU PRASAD SATHEESAN

### SENIOR SOFTWARE ENGINEER QA

| Functional Testing| API Automation |Selenium Automation |

Ph: +91 8015891765 | Email: [vishnusatheesan93@gmail.com](mailto:vishnusatheesan93@gmail.com)

LinkedIn: <https://www.linkedin.com/in/vishnu-prasad-5b5416104/>

### PROFESSIONAL SUMMARY

- 5 years of industry Experience in the area of software testing with solid understanding of STLC & STDLC Life Cycle, Test Planning, Test Design, Test Execution, Defect Reporting and Tracking.
- Majorly involved in delivery of Quality Application to client by following the STLC methodologies
- Expertise in Agile and waterfall methodologies.
- Proficient in Java programming and Selenium Web-driver to create Web UI Automation.
- Proficient in Webservice API Automation using Rest-assured.
- Expertise in tracking defects through Bug tracking tools like ALM and JIRA.

### ACHIVEMENTS

- Created Auto-Defect adds-on to existing framework, this automatically create JIRA defect when automation scripts are run in CI/CD tool, this tragically reduced human effort of capturing defect manually into JIRA on daily basis of Job run through Jenkins.
- Awarded Star Performer of entire ART team for the achieving completion of all accepted the stories without backlog for more than five PI and also putting the InProgress automation into act which helped in regress regression of in progress stories in same sprint which helped bring up defect which where not capture during manual testing

### TECHNICAL EXPERTISE

**Programming Languages:** Java

**Automation tools:** Selenium-Webdriver, TestNg, Rest Assured

**API testing tools:** Postman.

**Test Management tools:** QTEST, JIRA, HP- ALM.

**CI/CD tool:** JENKINS.

**Version Control:** Git-Hub.

## FUNCTIONAL SKILL SET

- Preparation of test plans, generating RTM and execution & reporting.
- Preparation of test cases and test scenario, review, run and generate test reports.
- Working on Regression testing, System Testing, Integration testing, User Interface Testing, Adhoc testing.
- Preparation of automation script to test UI and API automation testing using Selenium and Restassured
- Achieving continuous improvement and continuous development using Jenkin and maven build.

## EDUCATIONAL DETAILS

- Bachelor of Computer Application from Vels University with 70.11%,

## PROFESSIONAL EXPERIENCE

COGNIZANT | CHENNAI

MAR 2019 - Present

Program Analyst

### Project: Verizon

Verizon is a American telecom based company, It provides various service such us fixed-line, broadband and mobile services in the US, Clients have to build self-usable applications which helps their engineers to track the movement of service delivery to its user, This application passes through various modules in order to complete one full service delivery to end user.

### Roles and Responsibility:

- Co-ordinating with developer, Product Owner and Scrum masters in delivering the user stories.
- Involving in PI planning calls where stories for next PI will be discussed with presence of entire domain teams.
- Tracking of defect and updating of story progression in Jira,
- API manual testing using Postman.
- Preparation of test cases in Qtest to measure team effort during each iteration,
- Automating of progression and regression scripts using selenium web driver and REST-assured.
- Providing functional DEMO to the USERS on basis of story completion within the sprint

Associate Software Engineer

**Project: British Telecom (BT-GS)**

British Telecom is UK based Telecom company , It provides various service such us fixed-line, broadband and mobile services in the UK, and also provides subscription television.To provide service and interact with its customer BT requires CRM tools which are inter-related with multiple module, these multiple modules allow client to take a order from customer to provide and service the customer 24/7

**Roles and Responsibility:**

- Preparation of test plans, test cases, test execution,
- Co-ordinating with developer to test user stories
- Involving the functional requirements discussions
- Automating and maintaining regression scripts
- Tracking the testing status and defect details in HP-ALM
- Automating functional requirements using selenium wed driver
- Providing functional DEMO to the USERS on the business functionalities.

**PERSONAL DETAILS**

**DOB:** 28th Sep, 1993

**Languages Known:** English, Malayalam, Tamil.

**Address:** No1,2nd street Saraswathi garden, keelkatalai Chennai-600 117.
