PROFESSIONAL SUMMARY

Versatile Software Developer with 7+ Years of Experience Across Multiple Domains including Educational, Government, Security, Banking. Proficient in various Frontend & Backend technologies, Databases, best coding practices.

Attitude: Strong willingness to learn new knowledge and skills, adaptable to changing technologies, Having a creative mindset, good communication and great teamwork skills.

SKILLS

- | | |
|--|--|
| · Web Development : Go, Vue, JavaScript, Redis, Echo | · Tools : Visual Studio, Notepad++, Sublime Text |
| HTML, CSS, JAVA, AWS, Kafka. | · Version Control : Git, SVN |
| · Database: MySql, MongoDB, Cassandra, FDB | · Methodologies : Agile, JIRA |
| Deployment Tools: CICD, Jenkin, Docker, Kubernetes. | · RESTful Web services, Micro services. |

WORK HISTORY

Project 1 : Credit Card Application

Dec 2021 to Till date

Role: Senior Software Engineer (**Encora Innovation labs India Pvt. Ltd.**)

Responsibility: Develop clean, reusable and high quality of code, managed backend team, deployments, business technical discussions, Test Driven Development -TDD, Build algorithms & flowcharts.

Technologies & Tools: GoLang, Docker, Kubernetes, AWS, Git, Redis & Agile methodology.

Description: It is highly secure web application for bank credit card, The development of it is done from the ground up, just like building an architecture or creating a codebase from scratch. I have worked on various services like easy credit card apply, quick money transfer, security, receipt generation, payment alert, card management etc.

Project 2 : Information Management

Dec 2019 to Dec 2021

Role: Senior Technical Consultant (**Xebia IT Architects India Pvt. Ltd.**)

Responsibility: Backend developer, deployments, business technical discussions, Requirement gathering.

Technologies & Tools: GoLang, MsSql, Docker, Git, Redis, Kafka & Agile methodology.

Description: It is secure platform where we collect information in form of event and perform some sort of data enrichment on events then it is forwarded to customer dashboard for further processing.

Project 3 : Security Management

July 2019 to Dec 2019

Role: Software Engineer II (**Continuum Managed Solution Pvt. Ltd.**)

Responsibility: Go developer, R&D, Vuejs front end developer, deployments, business technical discussions.

Technologies & Tools: Golang, Cassandra, Vuejs, MySQL, Kafka, Git, Agile methodology.

Description: It is proactive and intelligent software with expert services that help us to capture advanced threat/attack detection and rapid SOC response, which allows us to establish the right security strategy for each unique client with better recovery mechanism.

Project 4 : eLearning Revolution for All (ERA)

Sept 2018 to July 2019

Role: Project Associate (MKCL - Maharashtra Knowledge Corp. Ltd.)

Responsibility: Go developer, R&D, Vuejs front end developer, deployments, business technical discussions.

Technologies & Tools: Golang, Vuejs, MongoDB, MySQL, Git, Agile methodology.

Description: ERA is content and assessment management framework based on Information Technology (IT) Literacy course in Maharashtra. It is a project where students perform self-learning sessions, Hands-on practice, Academic interactions, assessments, and collaboration. Their Performance is monitored by center staff.

Project 5 : MFS

Mar 2018 to Sept 2018

Role: Project Associate (MKCL - Maharashtra Knowledge Corp. Ltd.)

Responsibility: Go developer, Online Payment Integration, R&D, Vuejs front end developer, deployments, business technical discussions.

Technologies & Tools: Golang, Vuejs, MongoDB, MySQL, Echo, Git, Agile methodology.

Description: Students can apply for work based degree programs. Online examination, Video bio data upload, Scrutiny and Interviews. After selection in the company, students pay online fees.

Project 6 : Digital University

Dec 2016 to Mar 2018

Role: Engineer Trainee (MKCL - Maharashtra Knowledge Corp. Ltd.)

Responsibility: R&D, Go & Vuejs development, deployments, business technical discussions.

Technologies & Tools: Golang, Angular, MongoDB, MySQL, Echo, Tortoise SVN, Agile methodology.

Description: Digital University project is life cycle of student, college & university.
