ABOUT ME

Product ownership: created comprehensive functional requirements and prioritized them for all sprint meetings.

Responsible for release train management: dependencies, challenges and risks.

Managed QA and Engineering team of 28-30 resources (managers, developers, and analysts).

Led Product team transition to Agile development in 2 months.

Coached and trained teams on Agile techniques and Agile / Scrum Values

SivaKumaran AP

Scrum Master

CAREER OBJECTIVE

Experienced Scrum Master 5+ years of experience with a keen ability to understand and build complex systems with a proven track record of delivering high-quality software, on-time and within budget. I focus relentlessly on removing impediments from teams and delivering customer-centric products and features.
