Project Name: QBE Fast Flow – European Operations

Domain: Insurance

Duration: 05-Jul-2014 to 08-Mar-2015, Mphasis Ltd, Pune, India

Environment: Acturis UAT broker platform and Genius Web application manual Testing, Rational clear quest, Claims Management System, LINUX, Error Work Flow application,

Details: QBE underwrites a range of SME business products for Property, Casualty and Motor. These are offered to the market and administered through the Acturis electronic trading system. The policies bound on Acturis need to be replicated on Genius in order to feed into the downstream systems which QBE uses to manage its business. These systems include CMS (claims), Credit Control (premium collection), EI (reporting), Oracle (financial reporting), RISYS (Reinsurance). The current method of updating Genius with Acturis bound policies is by producing a bordereau for each product and CUS manually entering skinny (minimal number of fields with many defaults) policies into Genius.

Project Name: IBGTK (Integrated Business Group) – Development Bank of Singapore Ltd

Domain : Banking

Duration: 27-Jan-2014 to 04-Jul-2014, Mphasis Ltd, Singapore

Environment: Web application manual Testing, UNIX, HP ALM11.00, Team Site (CMS) page testing, User experienced design, DCR/DCT(data control recorder/data control template), cross browser testing (IE 8/9/10, chrome, Firefox, safari), Mobile device testing (Iphone5, Samsung android, nokia lumia, blackberry Z10, iPad, mini iPad, Galaxy tab)

Details: DBS is a leading financial services group in Asia, with over 250 branches across 16 markets. Headquartered and listed in Singapore, DBS is a market leader in Singapore with over four million customers and also has a growing presence in the three key Asian axes of growth, namely, Greater China, Southeast Asia and South Asia. The bank's strong capital position, as well as "AA-" and "Aa1" credit ratings that are among the highest in the Asia-Pacific region, earned it Global Finance's "Safest Bank in Asia" accolade for five consecutive years from 2009 to 2013.

Project Name: PIP HP Exstream (Personal Independence Payment)

Domain: UK Government, Pune, India

Duration: 19-Mar-2010 to 24-Jan-2014, Mphasis Ltd, Lytham St Anne's, United Kingdom

Environment: Manual Testing, Quality Centre /ALM11.00, Star Team, Exstream Compare Tool

Details: The vast majority of customer letters generated by the legacy systems and complex composition rules are embedded in the legacy applications and have been subject to large-scale change over the last 20 years. The business complexity and existing technology is posing considerable challenges in changing and improving these notifications. To overcome the business complexity Exstream was selected as the solution to design, compose and print the legacy notifications. Exstream is enterprise document automation software - It combines customer relationship management with document production; It provides multi-channel output from a single design.

Project Name: GMAC General Motors Acceptance Corporation

Domain: BFSI

Duration: 25-Jan-2008 to 28-Feb-2010, Mphasis Ltd, Pune, India

Environment: Mainframe Testing, Quality Centre, Star Team, CMT

Details: GMAC Latin America Operations LAO offers a wide range of wholesale and retail auto financing products to Opel, Vauxhall, Holden, Saab, Buick, Cadillac and Chevrolet dealers in 32 countries across the world. The Enterprise Lending System (ELS) is the financial system for Latin America region which automates the process of loaning funds for the purchasing of automobiles

Project Name: SIS Speciality Insurance Systems

Domain: BFSI

Duration: 31-Jul-2007 to 28-Dec-2007, Mphasis Ltd, Pune, India

Environment: Mainframe Testing, Quality Centre, Star Team

Details: The Web-based application has been designed for the US Client, where a customer representative creates a new claim for the Insured. After a verification of a policy number based upon the policy term and expiration date a claim is setup in the system. Adjuster surveys the property and submits the report. Examiner examines the report and act accordingly for the further payments according to FEMA rules. Online processes help all the concerned members to track the status of a claim. Insured can ask for the additional payment even after a final settlement of a claim along with ICC payment.
