Vaishnav Phad

Designation: Senior Data Analyst

Phone: +91 7972402289

email: vupphad123@gmail.com

Objective:

To work in a healthy, innovative and challenging environment extracting the best out of me, which is conducive to learn and grow at professional as well as personal level thereby directing my future endeavors as an asset to the organization.

Professional Summary:

Presently associated with Ltimindtree as a Senior Data Analyst in Business intelligence and data Visualizations, Data warehousing from Jun 22 to Till Date and from Jan 20 to Jun 22 IN Codepix Solution

➢ Having **4.3** years of Experience in **Tableau Desktop, Tableau Server, Tableau cloud, Oracle, HIve, Sql, Hql, Excel, Power BI ,SAP BO, Data modelling, Amazon S3, Redshift, Notepad++.**

➢ Experience in working with **Tableau Desktop, Tableau Server, Tableau Online, and Tableau Reade**r in various versions such as 10.X,2021.1,2022.1

➢ Involved In Requirement Gathering, Preparing Document of requirement gathering   & creation of report as per Business requirement.

➢ Proficient in Tableau data visualization tool to analyze and obtain insights into large datasets, create visually compelling and actionable interactive reports and dashboards.

➢ Design and Develop Reports, Dashboards and Scorecards using **Context Filters, Sets, Groups and Bins** while dealing with large amount of data.

➢ Designed Dashboards with **Quick Filters and Parameters** to handle more efficiently.

➢ Created views with different Axis like Individual **Axis, Dual Axis, and Axis Blended** for comparison.

➢ Knowledge on different type of Functions like **Logical, Number, String, Aggregate and Date Functions.**

➢ Proficient in creating solution driven views and dashboards by developing different chart types including **Heat Maps, Geo Maps, Symbol Maps, Pie Charts, Bubble Charts, Funnel Charts, Bar Charts (Horizontal, Stacked), Bullet Graphs, Area Charts, Scatter Plots**, **Donut chart etc.**

➢ A dynamic technocrat in **data Visualization, data Analysis**, IT analysis / Design and **Reporting analytics**.

➢ Preparing Data Validation Sheet in Excel to show to client for Data matching. & Report Approval.

➢ Good knowledge in build views, dashboards development using **Tableau Desktop**.

➢ Publishing customized interactive reports and dashboards, report scheduling using **Tableau Server**.

➢ Possess comprehensive knowledge in requirements and the design for Build and expanded reports to do **RCA**.

➢ Resolved end user reporting problems through collaboration with IT and Operations.

➢ Working on Agile Methodologies, closely working with Product owner and Scrum master.

➢ Good understanding of Data warehouse concepts. Analyzing the business needs and its convergence into the technical aspects of BI and Dashboards.

➢ Analyzed all issues in business intelligence programs and resolved problems.

➢ Good understanding of Data warehouse concepts, ETL, Star Schema, Snowflake Schema and Data modeling.

➢ Good understanding on query tunning to improve performance of Query.

➢ Experience on Power BI (Power Query Editor, Visuals, and DAX Functions).

➢ Working on power bi desktop,power query editor, power pivot.

➢ Used different connection to connect to data sources by using import, Direct query, Live connection.

➢ In power bi Apply row level security & creation of different visuals as per business requirement.

➢ By using power query Editor cleaning data and manipulating data as per business requirement for report development

➢ Working on python also for data anlysis.

Tools Used:

RDBMS	Oracle 10g/11g, SQL,Hql
Reporting Tool	Tableau Desktop, Tableau Server, Power BI
Unix	Unix Shell scripting
Database	Oracle, SQL server, MYSQL ,Hive,Excel
Domain	BANKING, Healthcare, Retail and Logistics
Ticketing Tool	Service Now

Professional Experience:

Project:	**CITI BANK**
Business Unite:	**DATA**
Platform used:	**Tableau Desktop, Tableau Server, Oracle SQL Developer, Hive, SAP BO , Excel,Notepad++**
Language:	**SQL, HQL**
Domain:	**Banking**
Duration:	**Jun 2022 to Present**

Project Description:-

1) Citi Bank Is One of the Top most bank in Banking sector.
2) In Citi Bank Project Migration of Report From SAP BO To tableau.
3) As per Business requirement Migration of report Functionally,Analytically with good performance from SAP BO to Tableau.
4) In this project By using custom sql query creating data sources on server,used data source by using Live Connection.
5) In this project used live connection .
6) Validation of Data between SAP BO And Tableau with creating comparison Excel sheet.

Responsibilities: -

➢ Analysis of the specifications,Functions,Data,Query and understanding the Report requirements present in SAP BO.
➢ Setup meeting between client And Developers and writing MOM to client with involve in issues discussion.
➢ Involved in the requirements gathering, analyzing and documenting business requirements and data specifications.
➢ What are the challenges faced by developer , finding out solution & same convey to Business.
➢ Exploring updated objects in tableau and implementing in report level as per Business requirement.
➢ **Used Groups, Bins, Hierarchies and Sorts** to create focused and effective visualizations.
➢ Used **Parameters, Filters, Quick Filters and Actions** to create Interactive Dash Boards.
➢ Used Parameter Action and Filter action with Apply button on tableau Dashboard.
➢ Created **Parameters and Sets** for preparing dashboards and worksheets in Tableau.
➢ Used parameters and input controls to give users control over certain values.
➢ Created **daily, weekly, monthly and quarterly reports** based on the customer requirements.
➢ Involved in incremental enhancements or changes in the existing reports.
➢ Combine the visualizations into Interactive Dashboards and publish them.
➢ Creating Schedules and checking the tasks daily on the server.
➢ Published customized interactive reports and dashboards using Tableau Server.
➢ Publishing Report on tableau server.
➢ Analyses of performance issue report and find out solution.
➢ Query tuning by using base tables , Hints , removing unwanted column from select statement.
➢ For Different data base system requirement used cross database joins & Data Blending

Project:	**UPS**
Form:	**Development and Maintenance.**
Platform used:	**Tableau, Tableau Server, Oracle SQL, Excel**
Domain:	**Logistics**
Duration:	**July 2021 to Jun 2022**

United Parcel Service (UPS, stylized as ups) is an American multinational shipping & receiving and supply chain management company founded in 1907.Originally known as the American Messenger Company specializing in telegraphs, UPS has grown to become a Fortune 500 company and one of the world's largest shipping couriers. UPS today is primarily known for its ground shipping service as well as the UPS Store, a retail chain which assists UPS shipments and provides tools for small businesses. In addition, UPS offers air shipping on an overnight or two-day basis and delivers to post office boxes through UPS Sure Post , a subsidiary that passes on packages to the United States Postal Service for last mile delivery.

Responsibilities: -

- ➢ Analysis of the specifications provided by the client and understanding the business requirements.
- ➢ Involved in the requirements gathering, analyzing and documenting business requirements and data specifications.
- ➢ **Used Groups, Bins, Hierarchies and Sorts** to create focused and effective visualizations.
- ➢ Used **Parameters, Filters, Quick Filters and Actions** to create Interactive Dash Boards.
- ➢ Created **Parameters and Sets** for preparing dashboards and worksheets in Tableau.
- ➢ Used parameters and input controls to give users control over certain values.
- ➢ Created **daily, weekly, monthly and quarterly reports** based on the customer requirements.
- ➢ Involved in incremental enhancements or changes in the existing reports.
- ➢ Combine the visualizations into Interactive Dashboards and publish them.
- ➢ Creating Schedules and checking the tasks daily on the server.
- ➢ Published customized interactive reports and dashboards using Tableau Server.

Project: **Novartis**

Project:	**Novartis**
Software Used:	**Tableau Desktop, SQL, Excel, AWS**
Database:	**Oracle 10g and Excel**
Role:	**Tableau Developer**
Duration:	**July 2020 – Jun 2021**

PROJECT DESCRIPTION:

Novartis AG (Novartis) is a healthcare company that focuses on the discovery, development, manufacture and marketing of prescription and generic pharmaceutical products and eye care products

Responsibilities:

- ➢ Modify and analysis client's requirement.
- ➢ Responsible for requirement gathering and enhancement
- ➢ Created Tableau Dashboards and Story for developing Business Intelligence dashboards
- ➢ Created heat map using state and county level geographies to give better visualization for Business to identify

troublesome states and countries using drilldown.
- ➢ Used feature like **Grouping, Set, Hierarchy, Calculated fields, Forecasting, Trend line, Reference Band.**
- ➢ Handling queries of team members and resolving the issues. Involving in code reviews sessions.
- ➢ Provided implementation and on-going support related to Tableau.
- ➢ Good knowledge in implementing on user level security for particular users or groups.
- ➢ Used advanced chart types and visualizations such as **donut chart, Water fall chart, Dual axis chart, funnel chart.**
- ➢ Developed Tableau workbooks to perform year over year, quarter over quarter, month over month, YTD, QTD and MTD type of analysis.
- ➢ Worked on SQL analytical functions like **RANK, DENSE_RANK ROW_NUMBER.**
- ➢ Creating projects, sites and publishing dashboards into tableau server.
- ➢ Use Measure name and Measure Value fields to create visualizations with multiple measures and dimensions.

Project:	**Walmart**
Software Used:	**Power BI**
Database:	**Sql server and Excel**
Role:	**Power BI Developer**
Duration:	**Jan 2020 – Jun 2020**

Walmart began building Supercenters in 1988 and are around 182,000 square feet employing about 300 associates. Walmart Supercenters offer a one-stop shopping experience by combining a grocery store with fresh produce, bakery, deli and dairy products with electronics, apparel, toys and home furnishings.

- ➢ Understand business requirement and analyze data, cleaning of data as per requirement of report.
- ➢ Prepare plan and checklist of all reports, dashboards to be recreated in Power BI
- ➢ Prepare data model using Custom SQL & validate the imported data
- ➢ Build Reports & Charts in Power BI as per requirement.
- ➢ Understand business requirement accordingly write new formulas in Power BI using DAX queries.
- ➢ Created custom chart like Donut chart, waterfall chart as per Business requirement.
- ➢ Validate all values in Power BI reports with Data base.
- ➢ Showcase it in BI Weekly review meeting to clients

Personal Detail:

Qualification:

Academic Qualification	University	Percentage%
B. E	Pune University	69.50
H.S.C	State Board of Maharashtra	68.50
S.S.C	State Board of Maharashtra	82.50

Date of Birth	:	Jun 14, 1993
Fathers Name	:	Mr. Udhav phad
Marital Status	:	Single
Language Known	:	English, Hindi, Marathi
Hobbies	:	watching movies, Playing Carom and Travelling

I hereby declare that the above written particulars are true and correct to the best of my knowledge and belief.

Date: 18/03/2024

Place: PUNE
