PROJECTS

- **Breast Cancer Detections Using ML**
The aim of this project is to predict the patient has breast cancer or not. To solve this problem, I worked on the numeric dataset. It contains extracted features of malignant and benign tumor cells.
- **Bangalore House Price Prediction Using ML**
The aim of this project is to predict the price of house located in Bangalore (India) using different features. To solve this problem, I have used XGBoost Regression Supervised ML Algorithm and compare with Random Forest Regression.
- **Fashion MNIST Classification**
The aim of this project is to predict the fashion classification and build the Neural Network
