- GCP
- MICROSOFT AZURE

PROJECT:

MBA

TITLE – RESTRICT THE USER TO ACCESS INTERNET BETWEEN TWO AREAS

DESCRIPTION – This system is designed to restrict the user to access the internet between two different areas using Router .By using routers ,first configure the ip address and then write the OSPF routing protocol to communicate with other networks / areas .By ACL we can restrict the particular user .These all were done by using ipv4.

B.TECH

TITLE – A SURVEY OF WIRELESS COMMUNICATION AND PROPAGATION MODULLING IN UNDERGROUND MINES

DESCRIPTION - The system is designed to detect alert residents with RFID tags, ZIGBEE .And the vehicle moves in the direction where RFID tags were placed. A sensor circuit is used to detect the tags, DC motor interface to move the vehicle, and an 8051 microcontroller are used in this system. The software part is tested and proven to work. By these we can avoid accidents occurred in underground mines.

INDUSTRIAL VISITS:

- Under water weapons torpedoes- Visited naval science and technological laboratory(NSTL) in B.tech
- Heavy plates and vessels plant - Bharat heavy electrical limited (BHEL),Visakhapatnam in April 2017
- Chemical industry – LG polymers India pvt.ltd ,Visakhapatnam in September 2017

PERSONAL DETAILS:

- FATHER NAME :Santhapuri. Venkata ramana rao.
- MOTHER NAME :Santhapuri .Umashankari.
- DATE OF BIRTH : 29 January 1995.
- SEX :Female
- MARTIAL STATUS : Unmarried.
- LANGUAGES KNOWN : English, Telugu and Hindi.

DECLARATION: I hereby declare that the above mentioned information is true up to my knowledge.
