### **Chain-Sys India Pvt. Ltd. Jan 2010 - oct 2012 Project: eChain ERP Product**

**Role: Developer**

#### **Description:**

Product name is eChain. ERP business solution for manufacturing and retail domain. Followed by Payroll, also part of this product. eChain has a lot of modules like Procurement, Sales Order, SCM, Shipping, etc. Customers can customize as per their business requirement. Retail is part of the ERP product and it could facilitate an enterprise-billing process. One of the best modules is reporting because after the system processes all transactions you can see consolidated sales and incomes. Therefore, it is useful to handle the retail business and ERP is useful to handle their business.

#### **Environment:**
