SUMMARY

- **3+ Years** of experience in Apttus Product Suite (**CPQ, CLM, Billing Management, Order Management, Advanced Approvals, X-Author Contracts, X-Author Excel**).
- Supported large enterprise customers on their break-fix issues and helped them build customizations, advanced configurations, and callbacks.
- Familiar with Salesforce Platform Administration and Development.
- 6X Apttus Certified and 3X Salesforce Certified.

EXPERIENCE

JUNE 2018 – PRESENT

CONSULTANT, APTTUS SOFTWARE PVT. LTD.

- I am currently working as Tier-1 Engineer for supporting Apttus/Conga Products.
- Also, I have been assigned as single point of contact for multiple large enterprise customers for consultation on their break fix issues.
- Worked with large enterprise customers on their Apttus upgrade project and helped them successfully upgrade.
- Hands-on experience on complete Apttus product suite – CPQ, CLM, Billing management, Advanced Approvals, X-Author Contract, X-Author Excel.
- Working on analyzing custom callback classes to identify issues with the help of debug logs and providing suggestions to fix the bugs withing callback classes.
- Created Knowledge Articles and delivered knowledge sharing sessions on certain product features.
- Delivered Apttus Product release readiness trainings before release go live to make team aware about new upcoming features and its impacts.
- Actively mentored 6 newly joined team members.

JANUARY 2018 – JUNE 2018

PROJECT TRAINEE, APTTUS SOFTWARE PVT. LTD.

- This internship was part of my B. Tech Course requirement.
- I worked as Tier-1 Engineer to support Apttus products.
- During this internship, I also started working with customer who were subscribed as premier support with Apttus.
