EXPERIENCE

Algoworks, Associate Technical Lead

October 2021 - Present

- ▶ Led and supported a team of Salesforce developers and administrators, ensuring successful project delivery through technical guidance and mentorship.
- ▶ Developed complex Salesforce solutions, leveraging various technologies to meet business requirements and implementing customizations for workflows, automation, validation, and integrations.
- ▶ Collaborated with stakeholders to gather requirements, translating them into technical specifications, and worked with cross-functional teams to deliver tasks on time. Conducted code reviews and maintained robust security measures for Salesforce, adhering to best practices for high-quality and maintainable codebase.

Algoworks, Senior Software Engineer

October 2020 - October 2021

- ▶ Developed and implemented complex Salesforce solutions, utilizing various technologies and customizations to meet business requirements.
- ▶ Designed scalable and efficient Salesforce architectures to ensure high performance and maintainability of applications.
- ▶ Implemented and customized a range of Salesforce features, including workflows, process automation, validation rules, and integrations with external systems using Salesforce APIs. Additionally, maintained robust security measures for user access and data protection.

Algoworks, Software Engineer

June 2018 -October 2020

- ▶ Developed and customized Salesforce applications with Apex, Visualforce, Lightning Components, and Salesforce APIs, optimizing existing functionality and integrating external systems.
- ▶ Collaborated with cross-functional teams, provided end-user support, and actively participated in Agile development methodologies, staying updated with the latest Salesforce features and incorporating new technologies.

Algoworks, Software Trainee

December 2017 -June 2018

- ▶ Received comprehensive Salesforce training in administration and development, including hands-on projects, configuration, and customization.
- ▶ Assisted senior developers/administrators, collaborated with cross-functional teams, and supported end-users, demonstrating strong problem-solving skills and a willingness to learn and adapt.
